 KNOWLEDGE THROUGH VISION

Microprojector 2 X2000

Ken-A-Vision introduces the 21st century "state-of-the-art" version of its 50 year old Microprojector! This new inverted microscope has a zoom lens and digital technology that connects directly to your classroom projector or computer. Ken-A-Vision is again reinventing the way science is taught.

Additional Features and Benefits

- Longer Working Distance
 - No Slip Covers Needed
 - No Heat From Light Source
 - Rheostat
 - Longer Viewing Time
 - Floating Stage
 - Zoom Lens
 - XGA Camera
- Room for larger specimens or containers
 Specimens will not be crushed
 Specimens do not get overheated
 Lighting is above the stage, not below
 Control the light from above
 Living organisms can be viewed over longer duration
 Temperature & oxygen levels remain same as in the room
 Easier to use with the larger specimens & containers
 4x - 40x Zoom
 Ultra High resolution images
 Can be displayed through a projector or computer

Contact Ken-A-Vision for information on the X2000-1 and X-2000-2!
