

GROUP 9

1:5 Audio Distributor

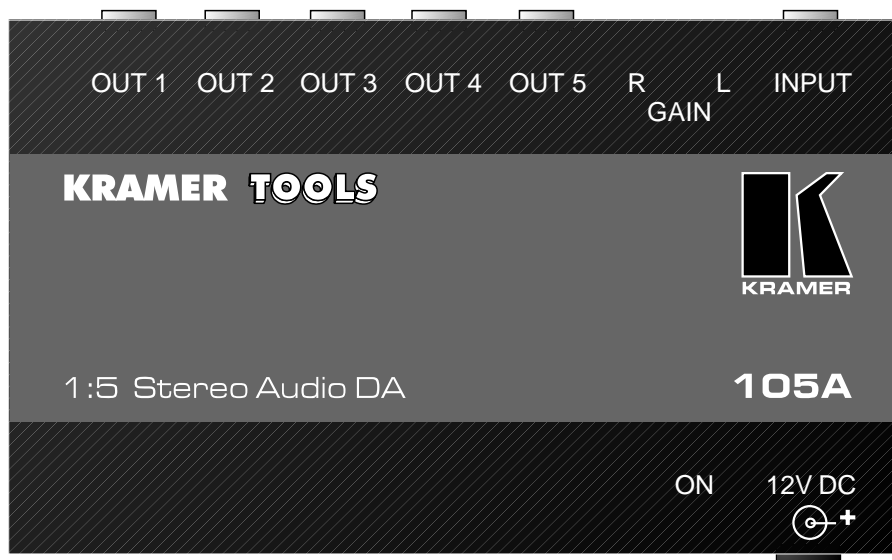

105A

The KRAMER **105A** is a high quality, state-of-the-art *1:5 Stereo-Audio / Balanced mono Distribution Amplifier* designed for studios, shops, showrooms and other demanding applications.

The **105A** splits a single audio stereo or balanced mono input source into five identical outputs. The **105A** uses an external 12V DC power source, and therefore is suitable for field work as well. The **105A** machine is the perfect "audio partner" of the **105V/105S** Video/Super-Video DAs.

Some features and applications:

- ❖ Video/Audio duplication studios, delivering undiminished quality audio duplicates.
- ❖ Video/Audio showrooms, delivering an identical stereo soundtrack to several acceptors.

Technical Specifications:

INPUT:	1 Stereo-Audio / Balanced mono, 1Vpp / 33k Ω on 3.5-mm mini phone connector.
OUTPUTS:	5 Stereo-Audio / Balanced mono, 1Vpp / 50 Ω on 3.5-mm mini phone connectors.
AUDIO BANDWIDTH:	20 kHz -0.1dB.
COUPLING:	AC.
S/N RATIO:	80dB Unweighted.
THD:	< 0.03% (2nd Harmonic).
CONTROLS:	Left and Right gain rear trimmers (0 / +3.5dB range).
MAX. OUTPUT:	5 Vpp (>+4dBm).
POWER SOURCE:	12 VDC, 100mA.
DIMENSIONS:	12cm X 7.5cm X 2.5cm (W, D, H.)
