

**GROUP 9**

## 4x1 Video Switcher

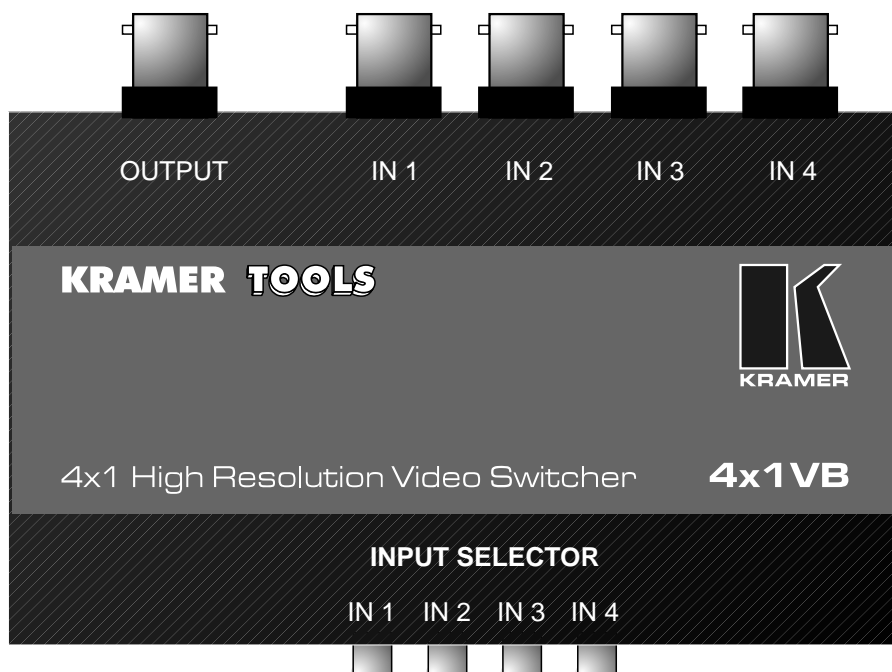

**4X1VB**

The KRAMER **4X1VB** is a precision mechanical *4x1 Video Switcher*, of the KRAMER TOOLS family - designed for studios, shops, showrooms and other demanding applications. The **4X1VB** is housed in a pocket sized enclosure.

### Some features and applications:

---

- ❖ High quality switching elements, for high isolation between inputs.
- ❖ All unselected inputs are internally terminated with 75-Ohm resistors.
- ❖ PCB especially suited for high frequency work.
- ❖ Very competitive price.
- ❖ Switches Video, SDI and any other high frequency signals.

### Technical Specifications:

---

<b>INPUTS:</b>	4 Video, 1Vpp/75 $\Omega$ on BNC connectors.
<b>OUTPUTS:</b>	1 Composite or single Component Video, 1 Vpp/75 $\Omega$ on a BNC connector.
<b>BANDWIDTH:</b>	> 400 MHz.
<b>SWITCHING SYSTEM:</b>	Mechanical, Break-before-make.
<b>DIMENSIONS:</b>	12cm X 7.5cm X 2.5cm (W, D, H.)
