

1:5 Video Distributor

50V

The KRAMER **50V** is a high quality, state-of-the-art *Video Distribution Amplifier* designed for studios, shops, showrooms and other demanding applications. The **50V** splits a single input source into five identical outputs. The **50V** uses an external 12V DC power source, and therefore is suitable for field work as well. Dozens of copies of videotapes can be made at the same time using several **50V** units chained through the looping inputs.

Some features and applications:

- ❖ Video duplication studios, delivering undiminished quality video duplicates.
- ❖ Video showrooms, delivering an identical picture to several monitors.
- ❖ CCTV and security monitors.

Technical Specifications:

INPUT:	1 Video, looping, 1Vpp / 75Ω on BNCs with a termination switch.
OUTPUTS:	5 Video, 1Vpp / 75Ω on BNCs.
VIDEO BANDWIDTH:	60 MHz -3dB.
COUPLING:	AC.
DIFF. GAIN:	1%.
DIFF. PHASE:	0.3 Deg.
S/N RATIO:	-73dB.
K-FACTOR:	<0.05%.
MAX. VIDEO OUTPUT:	2 Vpp.
POWER SOURCE:	12 VDC, 120mA.
DIMENSIONS:	16.5cm X 12cm X 4.5cm (W, D, H.)
