

PT-1 FW

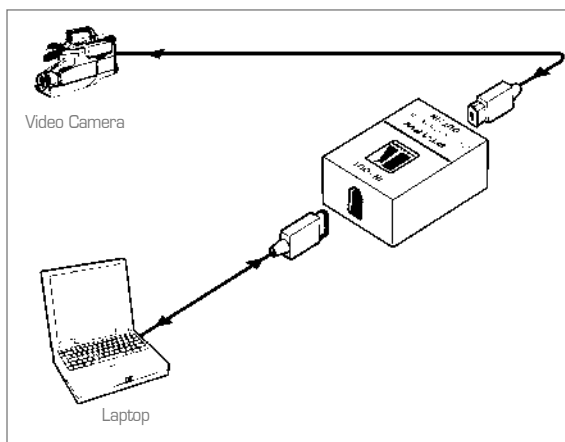

Spark-Guard Pro™ FireWire® Line Protector

The **PT-1FW** is a line protector for FireWire signals. It is used in Plug and Play applications where constant plugging and unplugging of FireWire equipment can result in permanent damage to sensitive equipment due to ESD (electrostatic discharge).

FEATURES

- **Passive** - No power required.
- **Input/Output** - 2.
- **ESD Protection** - Incorporates Kramer's Spark-Guard Pro™ signal protection circuitry to help protect against ESD (electrostatic discharge) which can damage digital equipment.

TECHNICAL SPECIFICATIONS

INPUT:	1 Firewire 6p connector.
OUTPUT:	1 Firewire 6p connector.
PROTECTION:	ESD 15kV, 24 Amp peak for 20 microsecond.
DIMENSIONS:	27mm x 49mm x 18mm (1.06" x 1.9" x 0.7") W, D, H.
WEIGHT:	0.054kg. (0.12lbs.) approx.
