VS-4x4FW
4x4 FireWire® Switcher

FEATURES

- **Mechanical (Passive) Switching** - No power required.
- **Transfer Rates** - 100, 200, and 400Mbps.
- **Desktop Size** - Compact size. Two units can be rack mounted side-by-side in a 1U rack space with the optional RK-81 adapter.
The **VS-4x4FW** is a high performance bi-directional switcher for 6-pin FireWire (IEEE 1394) signals. It connects any one of 4 inputs to any one of four outputs.
