

**Martin**

## IT'S A CIRCLE

**Light, fog, sound.** It's a circle. You surround your audience with a total effect, a **total experience.**

A lot of performers think it ends with the music, and to be honest, it probably does - **if that's your attitude.** But when I play, I want the crowd to feel **the whole thing,** a complete **ambience.**

Light through haze  
- shimmering on a beat.

**That's full circle.**

# BORN TO PERFORM

When nothing else ever grabbed you.

A job, a date, a car.

Nothing outside of that feeling.

That feeling when you first stood in front of a group and performed.

That's being born to perform.

We feel that passion at Martin.

It is central to our philosophy and why we engineer only excellence and performance into every product we make. Which is why our products are sought after the world over by DJs, bands, theaters - by every type of performer.

## MANIA EF1i

100W long life halogen lamp (included)

Cool effect light for parties, clubs and concerts

19 beams of light

Motorized pattern wheel

8 patterns with colors

No duty cycle - lights all night

Official product safety approvals:

## MANIA EF3

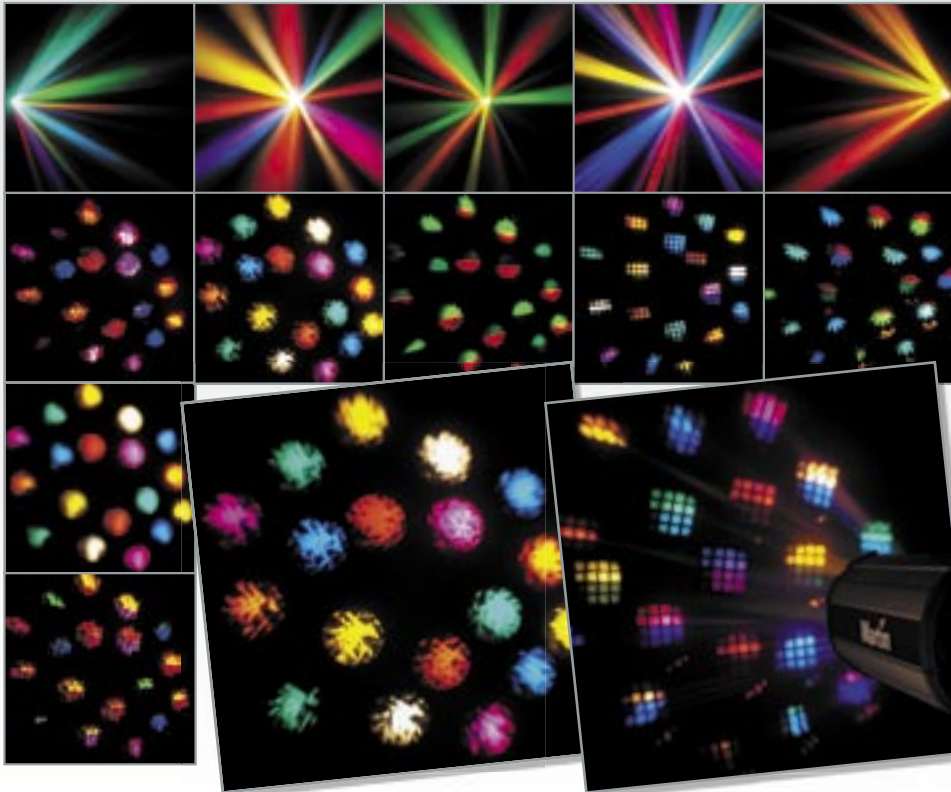

- 100W long life halogen lamp (included)
- Extraordinary, ever-changing midair effects
- 8 gobos: 6 with colored glass and 2 with structured glass
- Log-life lamp included
- Variable focus
- Endless color combinations with a rotating colored parabolic mirror reflector
- Sound activated
- No duty cycle - lights all night

The EF3 is the new cool and colorful light from Martin with awesome dance floor lighting effects suitable for DJs, bands, clubs, events or even your own personal party.

Official product safety approvals:

## MANIA PR1

- 250W long life halogen lamp (included)
- High precision optics for razor sharp projection
- Rotating replaceable gobo
- Option of steel or glass gobo
- Color slot for replaceable color filter
- Adjustable gobo rotation speed
- Manual focus with spread angle (25° full angle)
- No duty cycle - lights all night

The Mania PR1 is a high precision optic luminaire to herald your image, your logo, your decoration or your message onto any wall, floor or ceiling. With an interchangeable pattern disk (gobo) you can adjust your message to whatever the occasion; clubs, birthdays or weddings. Color filters can also be added and as with all Mania products, there is no duty cycle so it can run all night!

Official product safety approvals:

### Optional gobo kit:

### Customized logo examples:

Contact your Martin dealer for help in ordering your own customized gobo or the optional gobo kit.

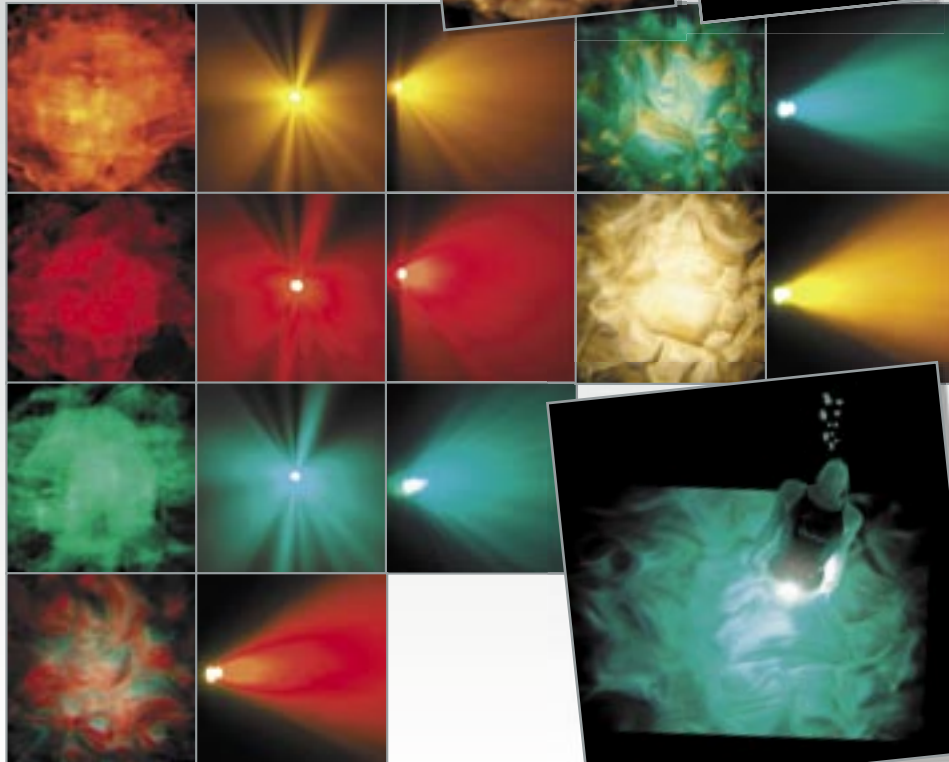

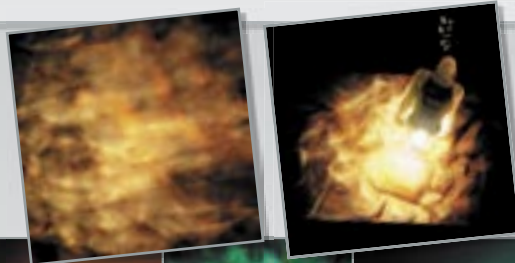

## MANIA DC1

- 100W long life halogen lamp (included)
- Cool lighting to set the mood at any celebration
- Liquid decoration effect
- 3 selectable colors plus white + split color options
- No Duty Cycle - No cool down period - No stopping you
- Variable focus for hazing effects
- Variable speed
- CW / CCW rotation for liquid effect

The Mania DC1 projects brilliant fluid effects and is ideal for clubs, shows or simply your own personal party. With three colors plus white the DC1 gives you split color options for a truly awesome mix.

## MANIA DC2

- 100W long life halogen lamp (included)
- Passionate lighting to set the mood at any celebration
- Blazing flame effects to burn an atmosphere into the night
- No Duty Cycle - No cool down period - No stopping you
- Variable focus for hazing effects
- Variable speed
- CW / CCW rotation for fire effect

The Mania DC2 is a decoration tool which projects sensational images of fiery flames, - turning up the heat at any club, show or party. With a variable focus to allow you to blur the edges of your effect, the DC2 will burn an atmosphere into any scene.

# “NEVER IN THE DARK.”

“If it’s not Martin, then the duty cycle of **most lighting fixtures is 15 minutes.** That means you have to **shut down your lights every 15 minutes** so they can cool down - **and that takes 15 minutes.**”

So if you want to **keep the show moving** you have two choices - **double up** your fixtures so **some work while others rest,** OR buy Martin. **Martin lights have NO duty cycle,** and that means you have a **continuous show** using half the fixtures which in the long run means - **half the cost.**

## MANIA DC3

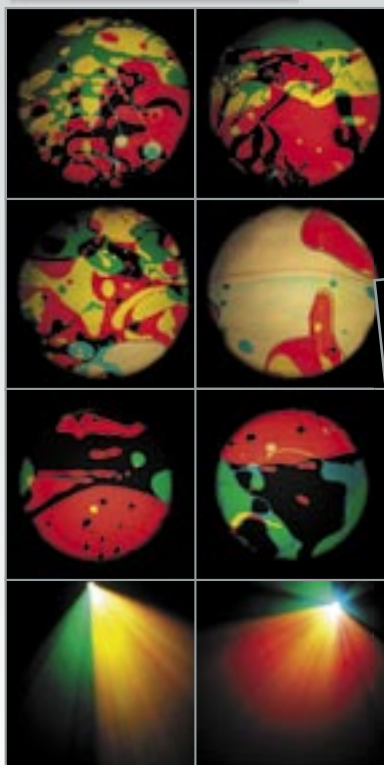

Powerful 24V/250W long life halogen lamp  
 Groovy oil wheel Decoration effect  
 Manual focus with 35° or 32° spread angle (optional 43°)  
 Speed and direction control of oil wheel for total versatility  
 Gobo pattern slot for special framing or gobo effects  
 No duty cycle - No stopping your show - Lights all night

The Mania DC3 is a decoration tool which projects sensational oil wheel images and creates psychedelic decoration effects at any show, club or party.

Framing gobos included

Official product safety approvals:

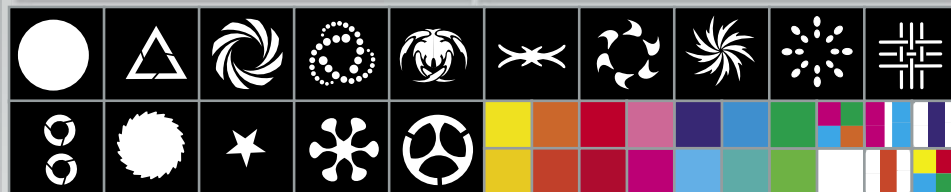

## MANIA SCX500

 15 full colors including white plus 5 mixed colors  
 Split color feature for added color capability  
 DMX control, music trigger or standalone  
 Master/slave function  
 No stopping your show - Lights all night!

The SCX500 is the extraordinary new 150W halogen scanner in the Mania series. Compact and light for such a powerful and feature-rich light, the SCX500 is built tough for life on the road, with total safety approvals to get you the ticket into any venue.

Official product safety approvals:

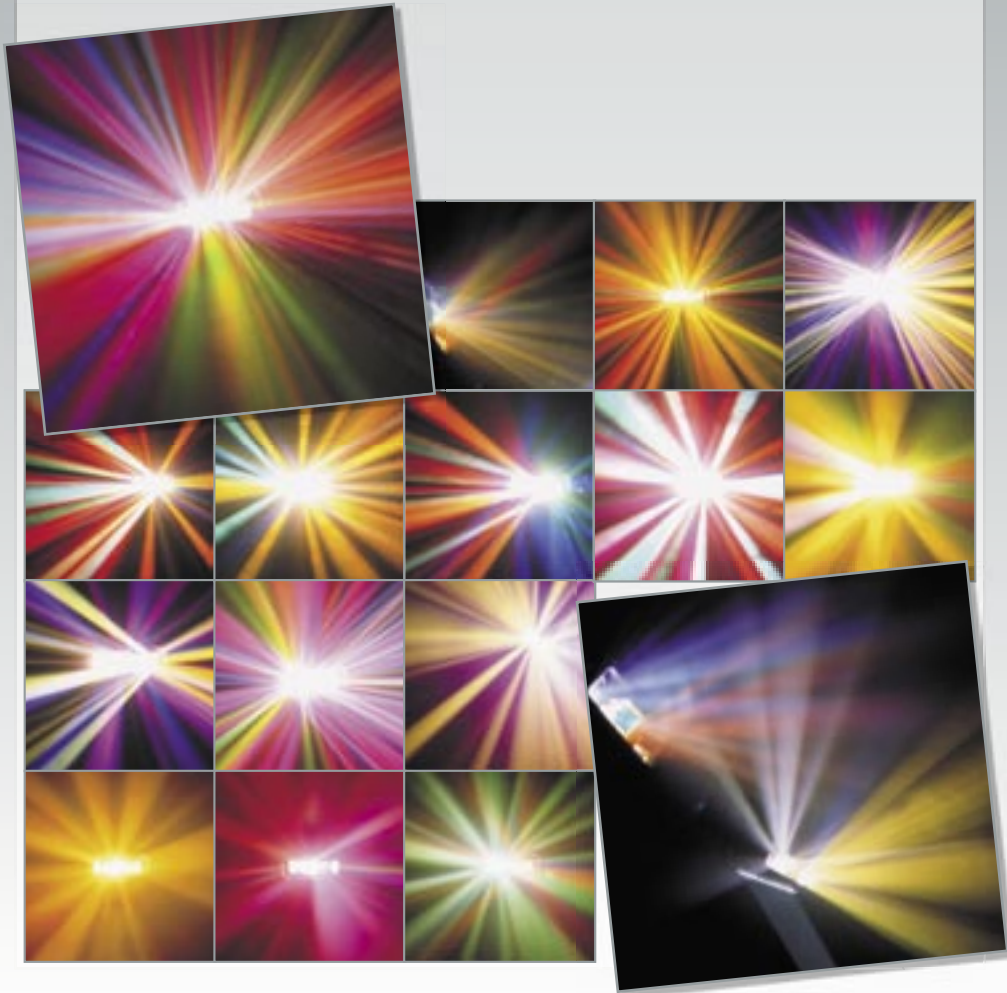

## RAPTOR

- 250W long life halogen lamp (included)
- 70 ever-changing, moving, colored light beams
- Dynamic and powerful mid-air performer
- High speed fan cooling
- Microprocessor controlled music trig
- Compact and handy design

The Raptor is a powerful mid-air performer from Martin creating a dynamic, eye-catching show with more than 70 ever-changing light beams.

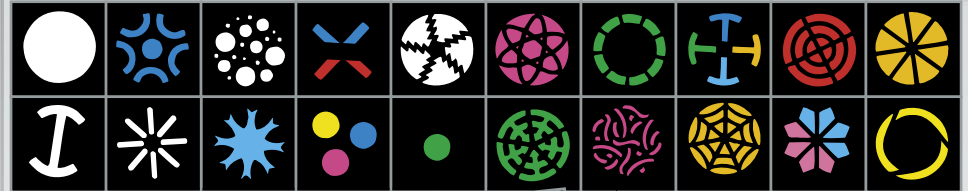

## T-REX

- 250W long life halogen lamp (included)
- 48 razor-sharp light beams
- Heavy-duty mid-air performer
- Quad angled mirror
- Continuous operation - No cool down time needed
- High-speed fan cooling
- Microprocessor controlled music trig

The T-Rex features a unique quad angled mirror for aggressive mid-air effects and combined color/gobo wheel offering multiple colors and a full arsenal of 19 gobo patterns.

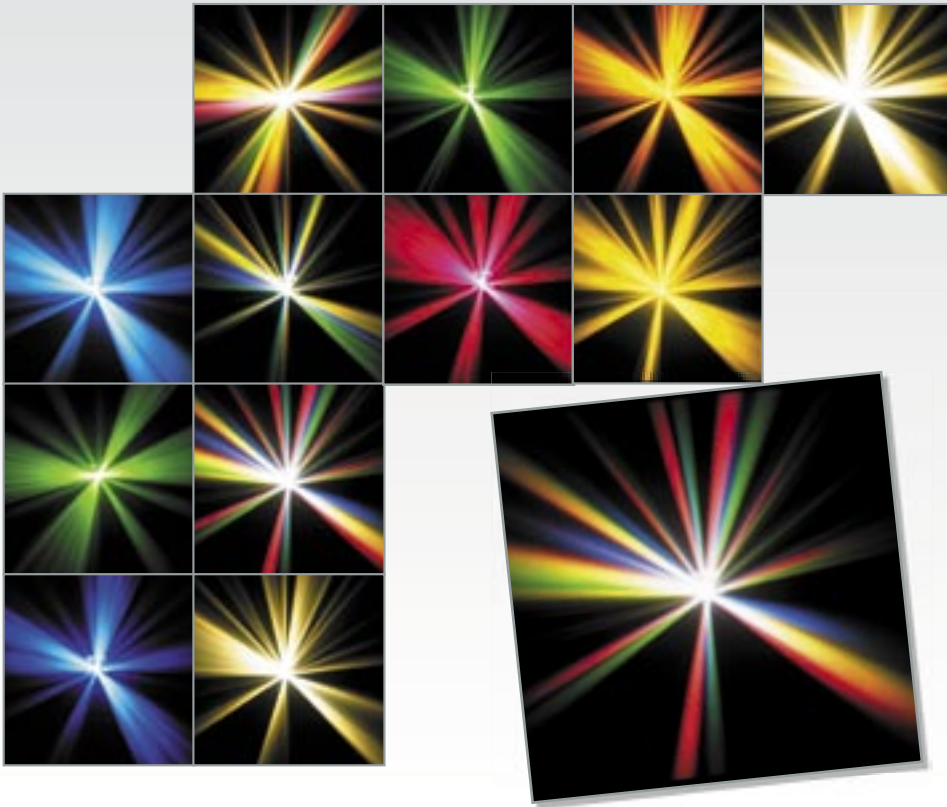

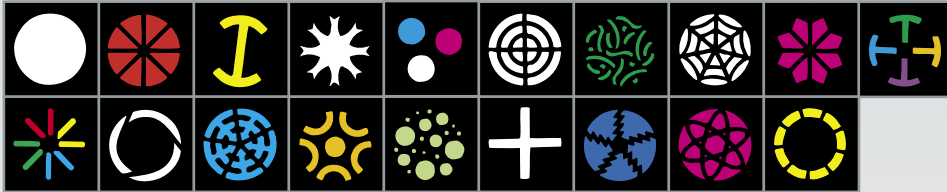

## ACROBAT

- 250W long life halogen lamp (included)
- 11 colors + 3 split colors + white
- 18 gobos
- Black out
- Strobe effect
- Revolving mirror drum, pan & tilt feature
- 50 ever-changing moving color and gobo beams
- Digital dimmer (0-100%)
- DMX or stand-alone mode

The Acrobat is an intelligent and dynamic disco lighting effect that lives up to its name with a stunning effect of over 50 ever-changing and continuously moving color and gobo beams.

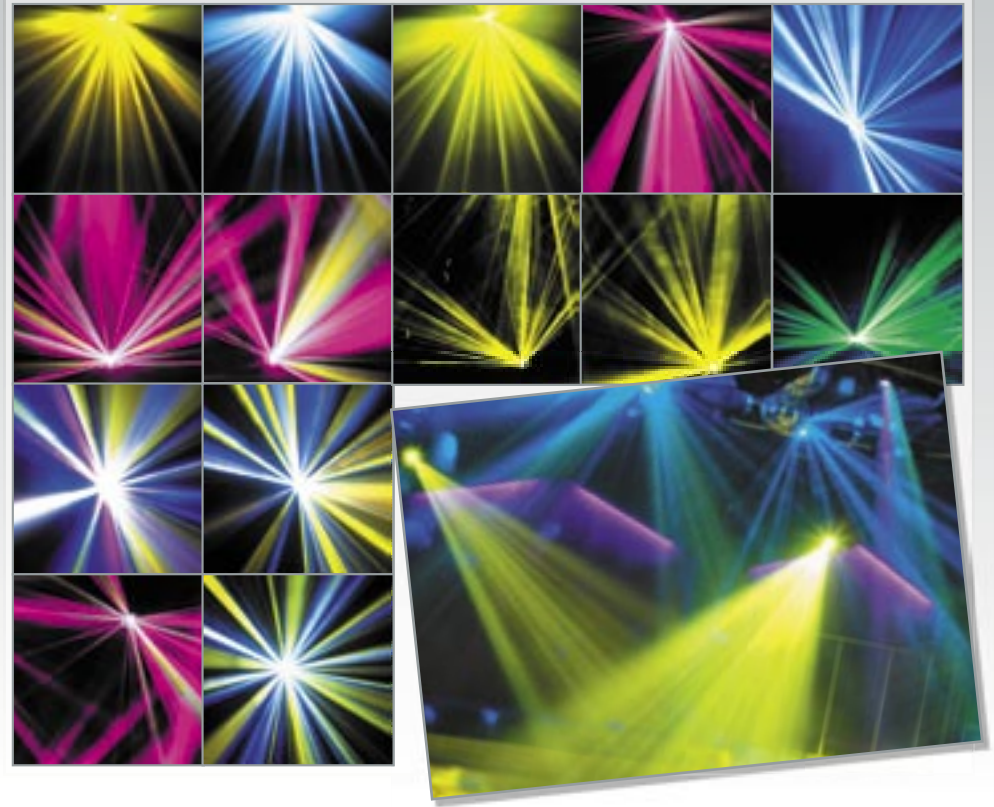

## WIZARD EXTREME

- Magical effect light with 80 beams
- 250 W MSD/2 long life lamp (3000h)
- Extreme output via high efficient optics
- Gobo wheel with 14 stunning patterns
- Color wheel with 7 colors plus open
- Twinkle effect
- Adjustable focus
- Separate shutter for fast strobe
- DMX or stand-alone mode
- 12 spectacular macros included

The ultimate in club effect lighting just got better! No other luminaire in the industry can match the magic of the Wizard and now with the Wizard Extreme, stunningly brilliant reflection and wild gobo patterns have been added to push out every ounce of power!

## “IF YOU LOOK AT IT THIS WAY...”

“When I started out, I was buying ‘cheaper’ fixtures - thinking of **saving some cash**. But after **only a few months**, about 300 working hours, the **lamps in cheap lights** would **burn out** and you know just how ‘cheap’ those are to replace? **Forget it.**”

The lamps in  
**Martin fixtures**  
give you at least  
**800 hours of action.**  
That’s **double the value**  
- you do the math.”

## EGO 01

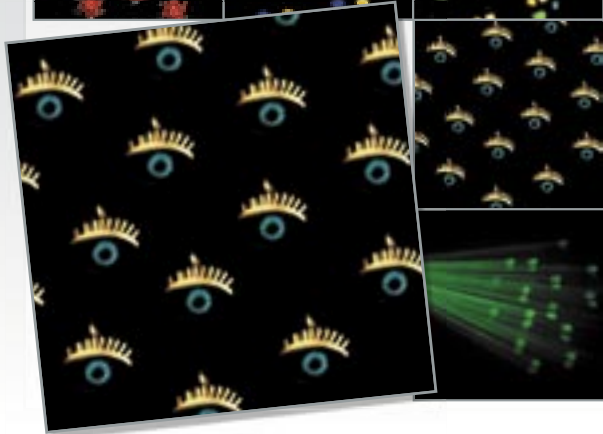

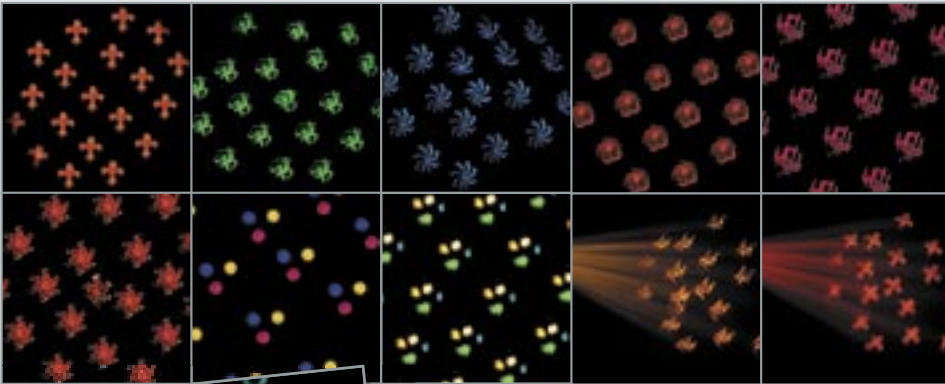

1000 HOUR LAMP LIFE

- 250W long life halogen lamp (included)
- Evolutionary flower effect
- Superlative projection optics
- Cool composite design
- Radical gobo designs
- Variable gobo and rotation speed
- Easy handling

The ego 01 is a razor sharp flower effect light with original gobos designed to add uniqueness to the DJ light show. Its cool, composite design houses a powerful 250-watt, long life halogen lamp for superlative optics and a precise focus adjustment enables super crisp projections.

- Variable behavior - to adjust how aggressively the effect reacts to music
- Selectable auto or music trig
- Precise focus adjustment
- Optional ego remote available
- Upload socket for future software improvements

### Keep your ego under control

The optional ego remote control can be used with any or all of the ego fixtures without DMX.

## EGO 02

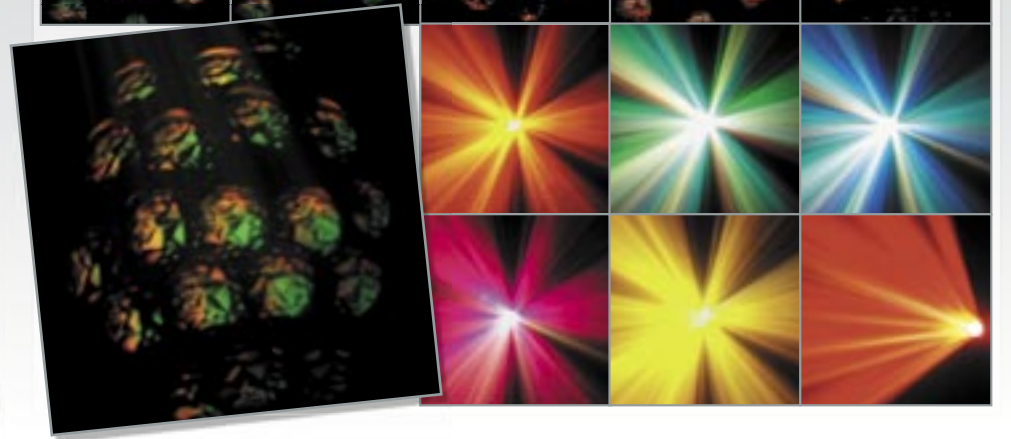

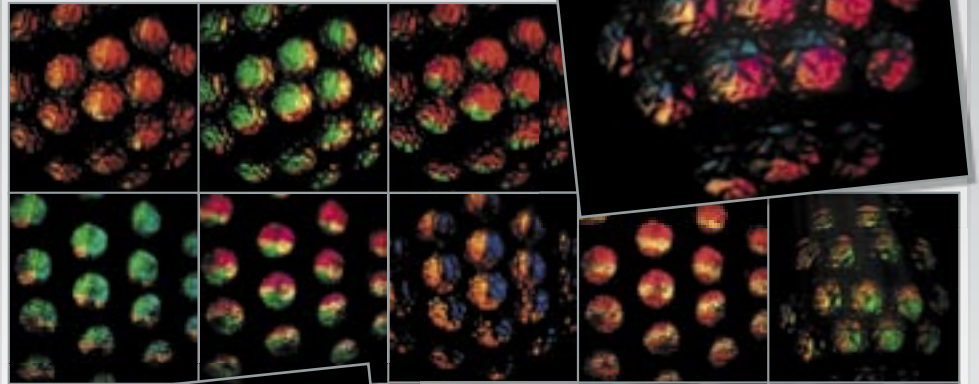

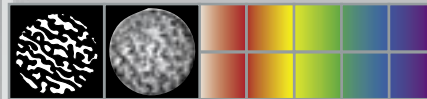

1000 HOUR LAMP LIFE

- 250W long life halogen lamp (included)
- Evolutionary flower effect
- Superlative projection optics
- Patent pending color system
- Manually selectable image effect (etched gobo or textured glass)
- Precise focus adjustment
- Variable speed on color and rotation
- Variable behavior adjusts reaction to music
- Selectable auto or music trig
- Optional ego remote available
- Upload socket for future software improvements

The ego 02 creates brilliant flower effects. It features a color system that offers more than 200 color combinations, and a manually selectable image effect (etched gobo or textured gobo patterns).

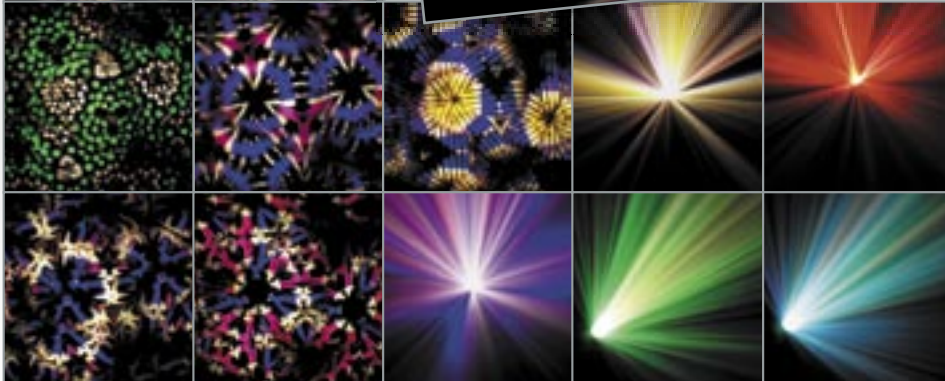

## EGO 03

1000 HOUR LAMP LIFE

- 250W long life halogen lamp included
- Kaleidoscopic flower effect
- Precision optics
- Specially designed color/gobo wheel
- Variable rotation speed
- Variable behavior - adjusts reaction to music
- Selectable auto or music trig
- Precise focus adjustment
- Optional ego remote available
- Upload socket for future software improvements

The ego 03 is a unique, 250-watt deco effect that projects a psychedelic swarm of kaleidoscopic colors. It features high precision optics, a specially designed color/gobo wheel, sharp and detailed kaleidoscopic gobo designs, all in a great looking composite shell.

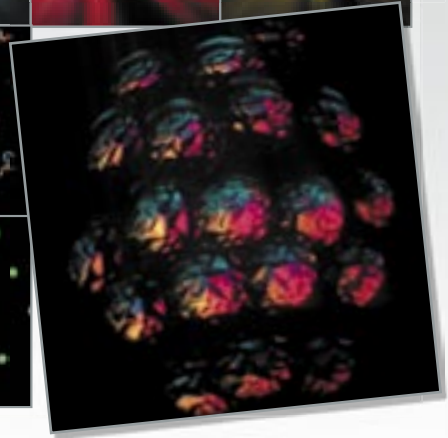

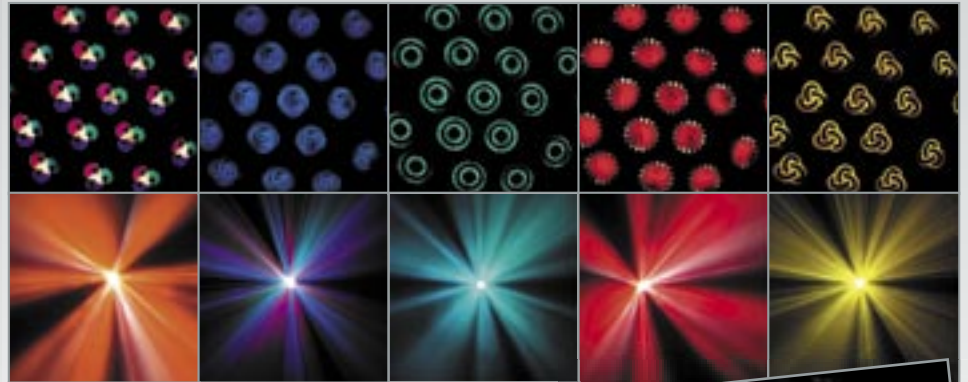

## EGO X4

1000 HOUR LAMP LIFE

- 250W long life halogen lamp included
- DMX 512 controllable
- Combined color/gobo wheel with new radical gobo design
- Superlative projection optics
- Bidirectional parabolic reflector with high reflective mirrors
- Variable strobe effect
- Evolutionary flower effects
- Cool composite design
- Digital dimming 0-100%
- Variable effect speeds on both the parabolic reflector and the color / gobo wheel rotation
- Continuous rotation on all effects
- Easy handling
- Selectable auto or music trig
- Precise focus adjustment
- Software upload via DMX link for future improvements

The ego X4 is a DMX controllable fixture that gives razor sharp flower effects with brilliant new gobo designs to add uniqueness to the DJ light show. Perfect for the serious mobile DJ and for use in clubs and Bars.

## EGO X5

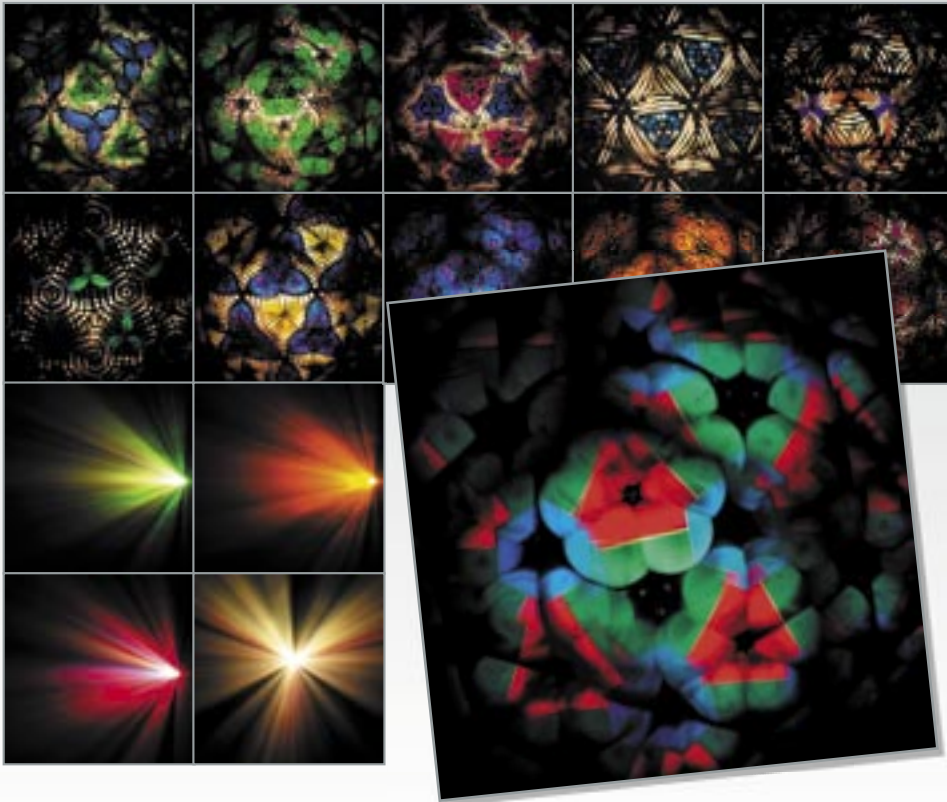

1000 HOUR  
LAMP LIFE

Ever changing kaleidoscopic effect  
 Totally DMX controllable  
 250W long life halogen lamp included  
 Razor sharp output  
 Innovative double mirror tunnel optics  
 Optimized gobo design for kaleidoscope effect  
 Effects shake  
 Continuous rotation  
 12 Macros  
 Precise focus adjustment  
 Stand alone with selectable auto or music triggers

The only one true kaleidoscopic effect on the market today with a blazingly bright output and razor sharp images to cut life into any show, club or party.

## EGO X6

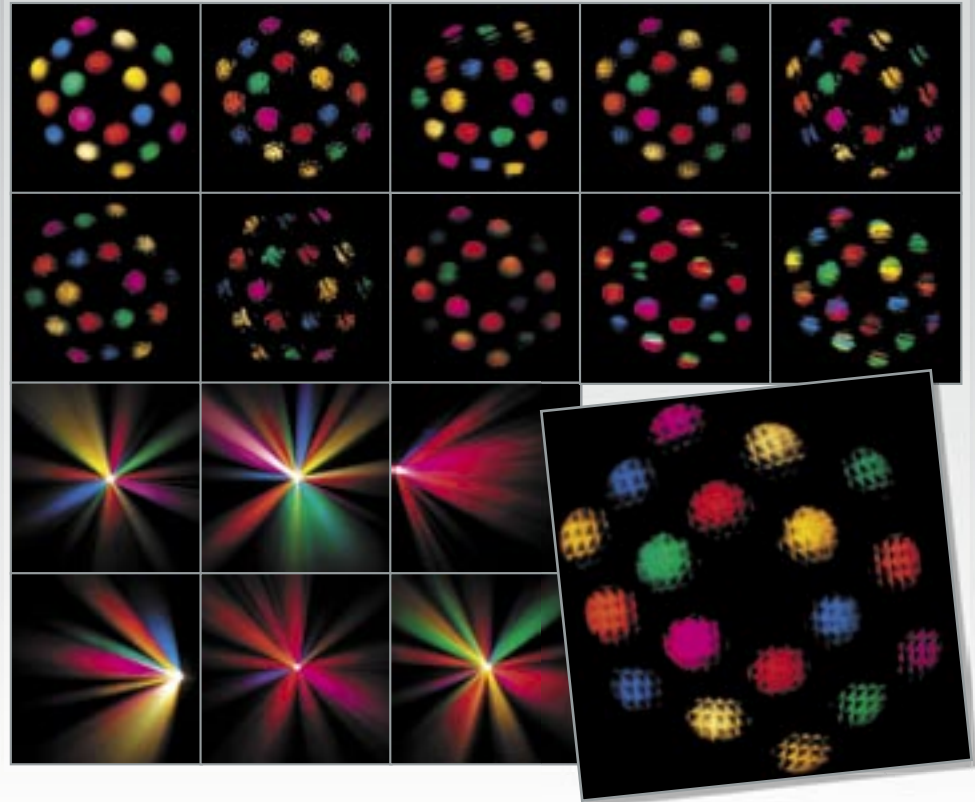

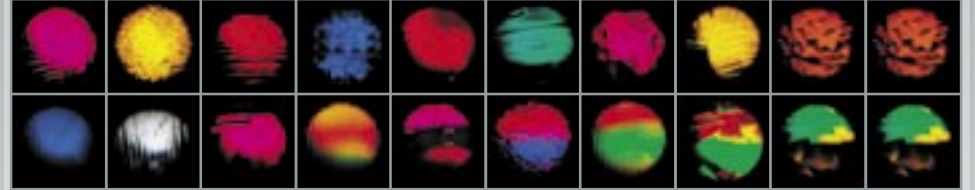

1000 HOUR  
LAMP LIFE

Superior decoration effect  
 Totally DMX controllable  
 250W long life halogen lamp included  
 Razor sharp projection  
 Textured glass wheel  
 Color and twinkle wheel  
 Shake effect  
 Parabolic mirror dish  
 Continuous rotation  
 12 Macros  
 Precise focus adjustment  
 Stand alone with selectable auto or music triggers

The new dazzling effect light from the ego series shoots colorful, piercing images into the night with DMX controlled simplicity.

# “THE SHOW’S NOT OVER UNTIL THE VAN IS FULL...”

“**Four o’clock** in the morning, packing up after a **long, sweaty show**, the distance between the **stage and the van** can **stretch out to an eternity**.

**It’s when weight, handles and portability overrule just about everything you ever thought was important.”**

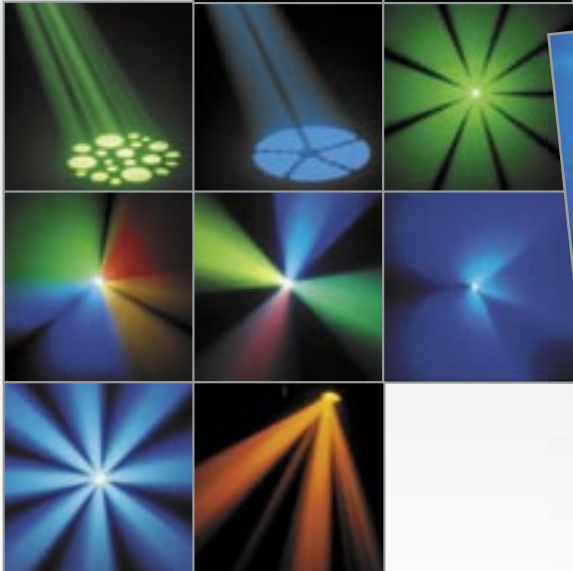

**MX-1**

**1000 HOUR LAMP LIFE**

- 250W long life halogen lamp (included)
- Fast and precise mirror movement
- 10 colors + 3 split colors + white
- 18 gobos
- Combined color/gobo wheel
- Strobe effect
- Digital dimmer (0-100%)
- Futuristic and light-weight design
- DMX or stand-alone mode

The MX-1 is a revolutionary lightweight scanner with an ultra-modern design that has taken the club and disco scene by storm. Featuring a combined color/gobo wheel for easy operation and quick programming.

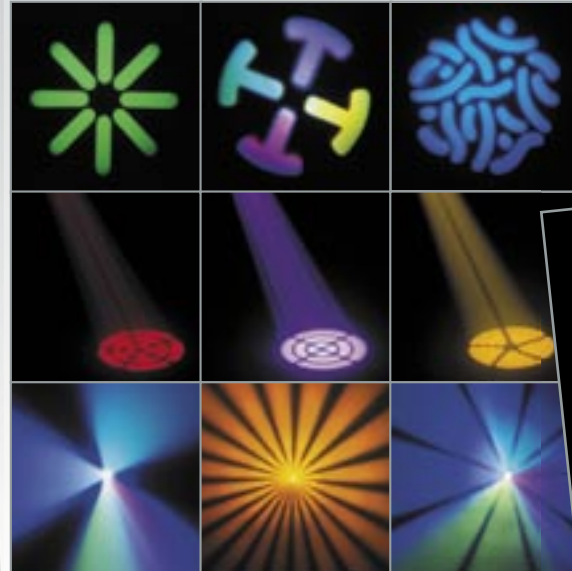

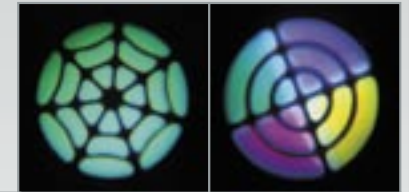

**MX-4**

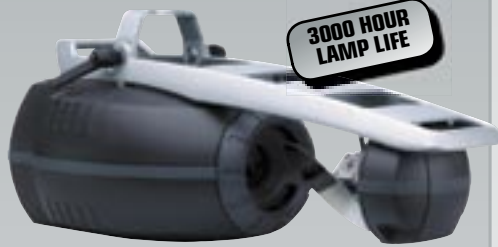

**6000 HOUR LAMP LIFE**

- 150W long life discharge lamp (included)
- Fast and precise mirror movement
- 15 colors + 2 split colors + white
- 19 gobos
- Individual wheels for gobos and colors
- Separate shutter for fast strobe effect
- Futuristic and light-weight design
- DMX or stand-alone mode

MX-4 is a bright and powerful scanner with a 150W discharge 6000 hour lamp. Using an ultra-fast strobe effect and individual color and gobo wheels it is the perfect choice for today's cutting edge DJ.

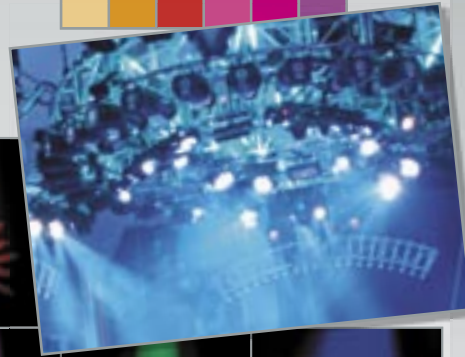

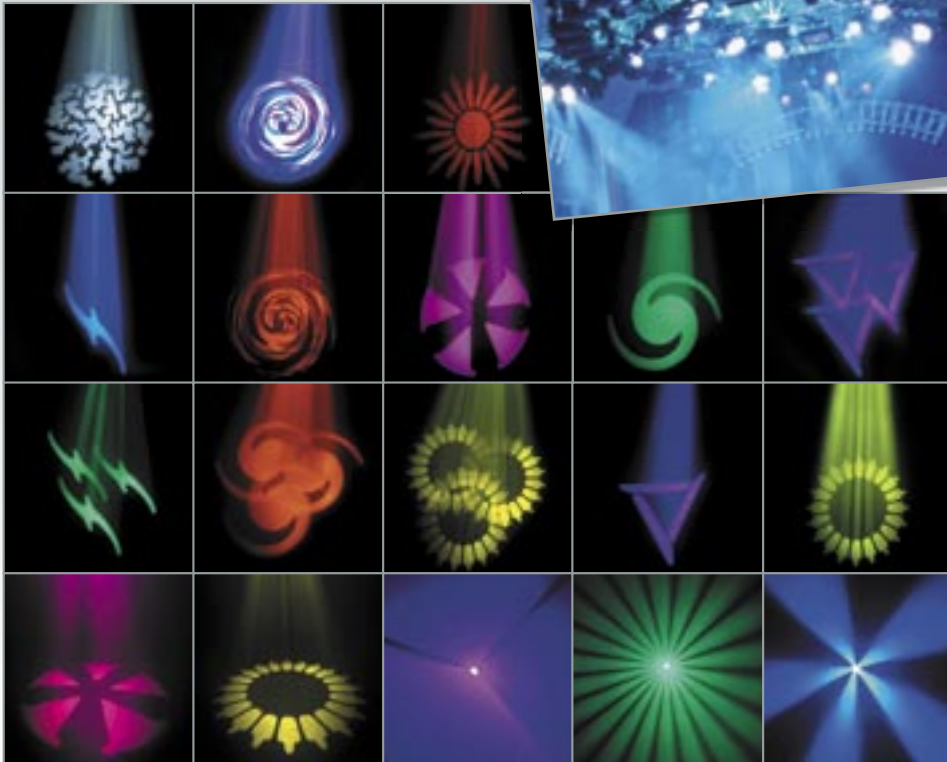

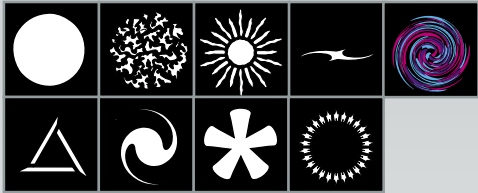

## MX-10 EXTREME

250W MSD/2 long life lamp (included)  
Superb image quality  
Pan/tilt range: 230.4° / 75.6°  
8 interchangeable indexed-rotating gobos  
12 interchangeable colors  
Motorized focus  
Interchangeable 3-facet prism  
Full-range dimming  
Beam Angle: 18 degree  
Fast lamp adjustment possibility  
Advanced low-noise motor control

The new MX-10 takes a dancefloor classic and reloads it with a powerful infusion of engineering excellence, design and technology, creating a versatile tool for a huge range of applications.

## “NO TIME FOR BUBBLE WRAP.”

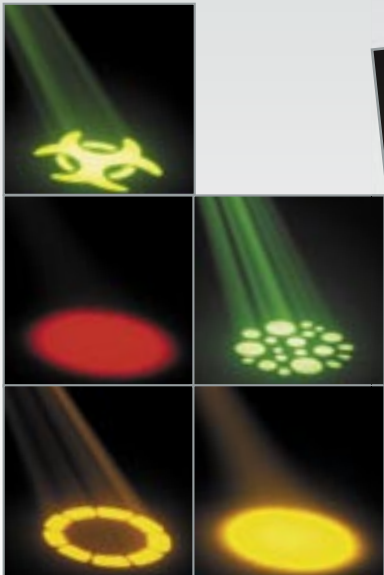

“When you **load and unload** your equipment as much as I’m doing currently, it gets done with **all the delicacy of a football game**. As such everything I am taking with me needs to be **tough and durable**. These **lights from Martin** have been with me for nearly **four years** and over **400 shows** and they **aren’t complaining.**”

**CX-2**

- 250W long life halogen lamp (included)
- 15 colors + 2 split colors + white
- 10 gobos
- 5 beam angles
- Frost effect
- Strobe effect
- Digital dimmer (0-100%)
- DMX or stand-alone mode

Martin's versatile CX-2 color changer, the first in the CX-series, is the ultimate easy-to-use color changer for venues of all types. CX-2 is adding loads of colors and excitement.

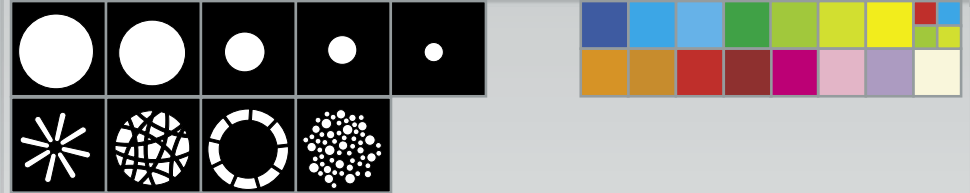

**CX-4**

- 150W long life discharge lamp (included)
- Two color wheels
- 77 different colors
- 4 gobos
- strobe effect
- 5 beam-reducing gobos
- Smooth, mechanical dimmer
- DMX, stand-alone or master/slave mode

The CX-4 is a versatile, automated profile color and pattern changer utilizing a 6000 hour, 150 watt discharge source.

# CX-10

250W MSD/2 long life lamp (included)

New glass cold light reflector for extreme output

Variable frost effect

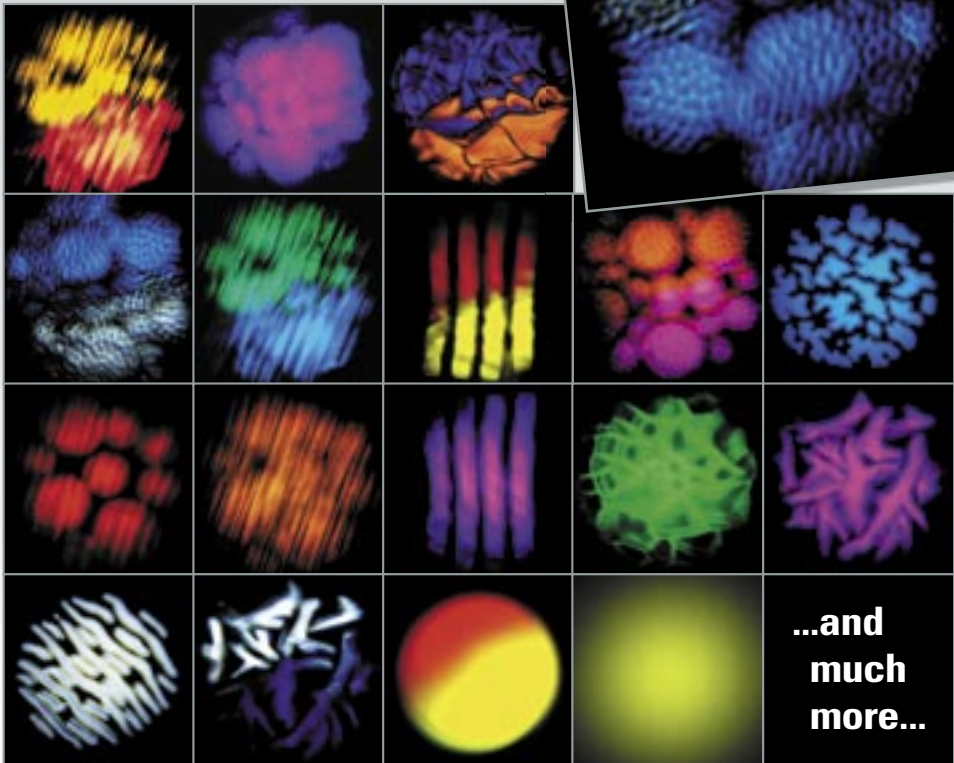

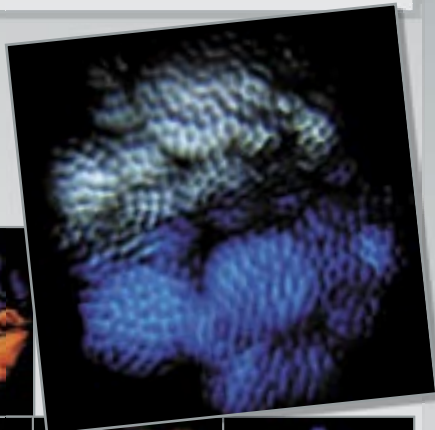

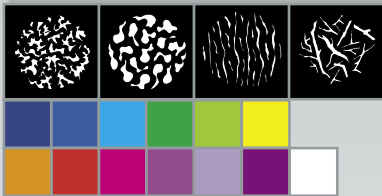

12 replaceable colors + open and split positions

Double sided effect wheel with 2x13 positions

Interchangeable colors, gobos, textured glass, filters and beam apertures.

Optional animation wheel

The new CX-10 is not just the next color changer in the Martin range; it is an evolution in decorative lighting. Using the boundless combination of color and pattern, the CX-10 layers every environment with the shape and shade of its intended use, pronouncing the message your club, your space, your decor wants to communicate.

...and much more...

A SHADE AND COLOR FOR EVERY MOOD

## “YOU GOTTA PUT OUT.”

When you're giving **110%** in every performance you want the same out of everybody and **everything working with you**. Your tools, your instruments, the speakers and PA. 110%. Whatever steps outside this rule is out. That's why we chose Martin fixtures for the lighting and effects. They're **brighter, bolder and faster** than the ones we left behind.”

## ATOMIC DETONATOR

- Dedicated remote control for Atomic strobe series
- Fader-controlled flash rate and intensity
- Single button for Detonator blinder effect
- Separate button for single flash and flash sync
- Chase effect operation with multiple units
- No external power necessary
- Easy set-up and operation

The Detonator is an optional, dedicated remote control tool for easy command of the Atomic strobe's flash rate and intensity. It includes "blinder effect" and "single flash" detonator buttons as well as a chase/synchronization toggle switch. Easy to set up and operate, the Atomic Detonator requires no external power source.

## FREEKIE

- Pitch fader allowing instant speed manipulation of lightshow
- Controls up to 12 fixtures each with 12 channels
- Smart macro function for easy creation of circle movements
- Joystick for pan/tilt control
- Master intensity fader for all fixtures
- Audio control: built-in microphone or external control signal input
- Multi-purpose smoke and strobe buttons (customizable for additional DMX units)
- Instant control of up to 24 shows with MIDI
- Set wait/fade times for advanced programming
- Followspot function: isolate any single fixture to work as joystick-controlled followspot

Add lighting control to your scratch, backspin, bend, drag, brake and power down.

The Freekie is a DJ controller that adds instant lighting control to the dancefloor mix.

Packed with easy to use features, Freekie also offers easy pitch control for instant lightshow to music synchronization.

**2518**

- Easy to use 72 DMX channels controller**
- 6 faders for instant control**
- Precise music input**
- MIDI remote control via MIDI notes or program changes**
- Master/slave configuration provides 144 DMX channels**
- Windows editing/backup program**
- Preprogrammed show available**

This capable controller offers what a good controller should - ease and speed. The 2518 is an easily programmable DMX controller for fast access to DMX controlled fixtures. Manually, automatically or musically triggered, the 2518 guarantees a dynamic and precise show.

**LIGHTCORDER**

- Record and playback DMX 512 in real time**
- 6 minutes to 3 hours of recording time**
- 8 Mb removable memory card included up to 64 Mb available**
- Built-in Windows Scheduler for easy set-up of light shows**
- Assignable faders allow for instant access to any lighting parameter**
- Simple user interface - easy-to-read LCD display**
- Remote controllable via RS-232**
- Built-in DMX viewer/tester**

The LightCorder is an easy to operate lightshow recorder that allows you to record and playback any DMX-512 output in real time. It lets you record from 6 minutes up to a full 3 hours of DMX output. Simply connect the DMX outlet from any lighting console to the LightCorder's DMX-in and you're ready to go.

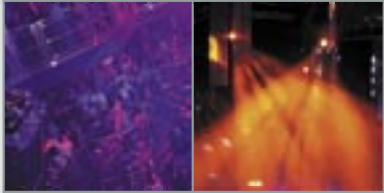

## MC SHOWTIME

- User-friendly plug-and-play show controller
- 30 ever-changing pre-programmed shows
- 10 slow, 10 intermediary and 10 hyper shows
- Intelligent BPM sound analyser for dynamic shows
- Instant control for strobe and blackout effects
- Easy set-up and operation

Instant "show time" is now possible with this user-friendly, plug and play show controller for the Martin MX series of scanners. MC Showtime is a pre-programmed "ready to go" controller offering 30 ever-changing light shows. MC Showtime also supports the Martin CX series of color changers as well as the Acrobat intelligent effects.

## MC-1

- Easy, "plug and play" remote controller
- Slow, medium and fast show control
- Full synchronization of movement, colors and gobos
- Precise triggering to the beat in the music
- Manual blackout and strobe function for a more dynamic light show
- Manual instant "Freeze" of all fixtures
- Invert movement and color position on fixtures for more variation

The MC-1 is a small remote controller for easy and fast operation of dedicated products. The MC-1 can, with no programming at all, coordinate all connected products for a perfect synchronization of movement, color and gobo change.

- Power up and down 6 fixtures
- Daisy chain up to 24 units through four power boxes
- Works with lights, fog machines or mirror balls
- Six channels out
- Maximum of 300W output for each channel (1,800W total)
- Easy to use, install and set up
- May be used as table or rack mount

The MC switch lets you power up and down 6 fixtures such as lights, fog machines or mirror balls, with the option of daisy chaining up to 24 units through four power boxes.

## “TO BE OR NOT TO BE”

“Getting the ticket to play in venues these days is not always so easy.

It’s no longer just what you play, but what you play it on and how **safe** it is. An insurance thing I guess.

This is even more so with your lights, and if you can’t show the **right** safety approvals then forget it.

But all the Martin fixtures we use come with **total safety approvals** and that gives them **peace of mind** and us a clear shot at the gig.”

## LIGHTJOCKEY 2

Windows 2000 XP, Win ME,  
Win 98-95 based controller  
Large fixture library and  
user configurable editor  
Solid beam virtual visualizer for  
programming shows off-site  
Supports MP3, audio CD,  
SMPTE and MIDI timecode  
PCI, USB, PCMCIA interface options  
Control of up to 100 fixtures,  
2048 DMX channels  
Integration with 2532, Fingers and  
2518 for more direct access  
Graphical representation of  
all fixture functions

Easy to use and logical, LightJockey is a powerful PC-based DMX controller which uses all the benefits of the Windows environment such as resizing of windows and drag and drop technology. Capable of controlling up to 100 DMX fixtures, this flexible system is the perfect controller for the disco and mobile DJ market.

## FINGERS

Launching programs directly from buttons  
Next, previous and go functions  
for manual cue lists  
Triggering of individual or multiple sequences or  
turning them on or off from buttons  
Latching specific cues/sequences  
Master and sub-master intensities  
from faders and bump buttons  
Override specific DMX output channels via faders  
Dynamic play-back timing control  
from faders or jog wheels  
Fog/smoke-haze control

Fingers is a new, robust, front end, dedicated to the well-known Martin LightJockey - a lighting controller that is capable of controlling up to 100 DMX fixtures. With a highly customizable setup, Fingers permits a large number of the LightJockey functions to be mapped directly to physical faders, buttons and jog wheels.

# XCITER

- 40 fixtures, with maximum of 48 channels + dimmers (Total max 512 channels)
- Add Pan/Tilt shape effects with timing effects
- Add any effect to a single channel including timing effects
- Up to 10 manual override scenes during playback on faders
- Freeze button
- Pitch fader; gives increase or decrease to show speed by up to 5 times.
- Master fader to adjust general light intensity
- 4 Programmable custom buttons.
- Assign different spectrums of the music as a trigger for any parameter of the fixture(s).
- Export, backup or import shows via USB to PC.

## Close the circle

The new Xciter lighting controller from Martin closes the circle on total performance control. It provides complete functionality to your fingertips

with instant pitch adjustment, freeze, flash, black-out, master fader and more. From the most personal show to mid-sized performances, the Xciter puts you in total control.

## MID AIR EFFECTS?

“It’s about putting as much fog and haze in **between** your **light** and their destination.

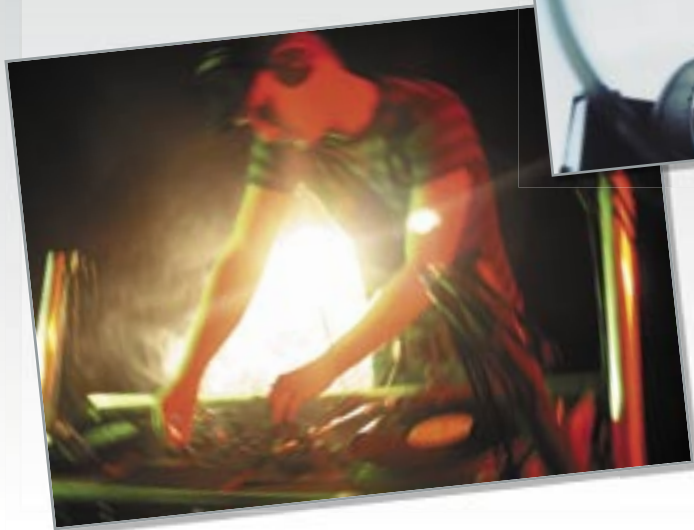

**Every particle** gets **illuminated** and **suspended** on a dazzling beam of light **creating awesome effects**. Forget walls and floors - **space becomes the canvas!**”

## RECOMMENDED FOG FLUID

The Martin Factory in Lincolnshire, England houses a fully computerized and automated mixing plant, the most sophisticated fog fluid production plant in the world.

Only the highest quality components are used in the production of all Jem fog fluids. A process of Double Reverse Osmosis, which dramatically reduces the risk of Heat Exchanger blockage, extracts all mineral content while a further process of Ultra-Violet filtration ensures that the fluid is bacteria-free.

## 600W ECO-Mass Vaporizing System

**Hand Held Remote Control**

**5m Remote Cable**

**7 minute heat up time**

**1 liter fluid container**

**High Quality Overheat Protection**

**High Quality Piston Pump**

## MAGNUM 550

The Magnum 550 Fog Machine provides the DJ with a perfect boost of dense white fog to enhance every light effect. Its fast heat-up time and extended operational period make the Magnum 550 the clear leader in its class.

## 750W heater

**Continuous output**

**Timer remote control**

**Output level control**

**7 minute heat up time**

**1 liter fluid container**

**Direct thermal protection**

**Optional DMX interface**

## MAGNUM 800

Dance clubs and discos the world over greatly appreciate this industry workhorse. This reliable yet compact fog machine delivers a non-stop intense cover of fog for instant atmosphere generation – a must for any mobile DJ or small club.

## MAGNUM 2000

- 1,600W heater
- Continuous output
- Timer remote control
- Output level control
- Adjustable truss mounting bracket
- 8 minute heat up time
- Large 9.5 liter fluid container
- Analogue link socket
- Electro-mechanical overheat device
- Microprocessor controlled electronics
- Optional DMX interface

No other portable fogger can match the output of the Magnum 2000. Its solid reliability and quality operation has made the Magnum 2000 the most specified fog machine in the world.

## MAGNUM HAZER

- 900W heater
- Continuous output
- 2 minutes heat up time
- On-board 3 pin DMX (2 channels fan speed and fog output)
- State-of-the-art digital technology
- Fog output control
- Fan speed control
- 2.5 liter fluid container
- V.G.A. system (Variable Geometry Airflow), allows you to set the angle of the output.

The Magnum Hazer gives your light show outstanding refraction with an effortless ease. Incorporating some of the most complex technology behind the simplest interface, the Magnum Hazer is one of the most effective, mid-sized Haze solutions available today.

# THE QUIET IN THE STORM.

“When it’s two o’clock in the morning - **second show that night.**  
**So much to say** and **so little time**, you need to set-up and put-out  
**without the stress.**”

It’s what I get **with the M•FLEX 15.**  
There are only **three places to go** in  
the dark; **2 of them are input lines**  
and **the third is for the mike.** It lets  
you **focus on what matters.**”

## M•FLEX 12

**128dB max SPL**  
**On board mixer with mic and two line inputs**  
**Built in DSP**  
**Switch-mode power supply**  
**Ultra compact and light weight coaxial design**  
**110x110 degrees wide dispersion**  
**12" coaxial woofer with 1" compression driver**  
**Active line driver for link**  
**Integrated flying system, top-hat adapter and handles**

With remarkable voice clarity and a wide, powerful and uniformed dispersion, the M•FLEX 12 is a trusted colleague; beside you at any event.

## M•FLEX 15

**132dB max SPL**  
**On board mixer with mic and two line inputs**  
**Built in DSP**  
**Switch-mode power supply**  
**90x40 degrees controlled dispersion**  
**15" woofer with 1" compression driver**  
**Active line driver for link**  
**Integrated flying system, top-hat adapter and handles**

With an extremely high powered performance the M•FLEX 15 has two line inputs plus one microphone, wide dispersion, a true, full range and excellent voice quality reproduction.

## M•FLEX SUB

**129 dB Max SPL**  
**Switch mode power supply**  
**15" woofer**  
**Light weight design**  
**Integrated flying system**  
**Integrated top-hat adapter**  
**High-pass output**  
**High-bass output**

The brilliant tool for low frequency reproduction, the M•FLEX SUB delivers the punchy bass kick you require to close the circle on your sound performance.

## M•FLEX 12 XP

- 127dB max SPL**
- Ultra compact and light weight coaxial design**
- 110x110 degrees wide dispersion**
- 12" coaxial woofer with 1" compression driver**
- Integrated flying system, top-hat adapter and handles**
- Speakon NL 4 connector with link option**
- Thermal protection system**

The passive version of the brilliant M•FLEX 12 the 12 XP has remarkable voice clarity, powerful and uniform dispersion and is compact and light for ease of transit.

- 130 dB Max SPL**
- 15" woofer**
- Light weight design**
- Integrated flying system**
- Integrated top-hat adapter**
- Thermal protection system**
- Speakon NL 4 connector with link option**

Designed for passive, low frequency reproduction, the M•FLEX SUB XP delivers a punchy bass kick to your show.

## M•FLEX XP SUB

## M•FLEX 15 XP

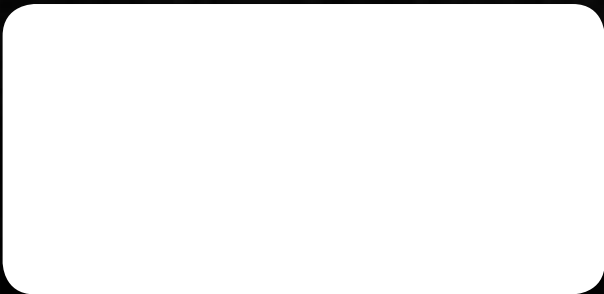

- 130dB max SPL**
- 90x40 degrees controlled dispersion**
- 15" woofer with 1" compression driver**
- Speakon NL 4 connector with link option**
- Integrated flying system, top-hat adapter and handles**
- Thermal protection system**

The extremely powerful performance of the M•FLEX 15 XP has a wide dispersion and excellent voice quality reproduction.

Optional bags for easy transport and protection
