

New Feature-Rich Leviton/NSI 2- and 4-Channel Programmable Dimmer Packs

Definition:

Leviton/NSI combines cutting edge NSI technology and performance in two new Programmable DMX Dimmer Packs: the 1- or 2-channel DMX Programmable Dimmer Pack (Cat. No. D2-DMX) and the 1-, 2-, or 4-channel Programmable Dimmer Pack (Cat. No. D4-DMX). Both boast the latest convenience features: Resettable circuit breakers in lieu of fuses and one-button setup of digital DMX addressing via a user-friendly LED panel, eliminating dip-switch settings. Their sturdy metal chassis makes these rugged packs ideal for both stationary and portable applications. In addition to multi-channel DMX dimming control, these units can also provide a stand-alone chaser function with 16 pre-programmed patterns.

Features and Benefits:

- Resettable circuit breakers (no fuses to change)
- Simple pushbutton DMX addressing makes setup a snap
- Bright LED display for easy, menu-driven programming
- Versatile output channel selector lets you choose the exact number of channels you need (Cat. No. D2-DMX: 1 or 2 channels; Cat. No. D4-DMX: 1,2 or 4 channels)
- 16 Pre-programmed chase patterns with chase speed and chase output level controls.
- 2- and 4-channel models available
- Input: 120V, 60Hz, 2400W
- Output: 120V, 60Hz, 1200W per channel, 2400W Maximum
- Built-in mounting bracket
- Housed in rugged metal protective chassis

Dimensional Data for D2-DMX / D4-DMX (D4-DMX Shown):
