

# **SPACESAVA™ MODULES**

## **STEREO HEADPHONE AMPLIFIER**

### **WITH DUAL INPUTS & 4 HEADPHONE OUTPUTS**

**There are more than 20 Nigel B Modules that can be installed in this unique 19" RackFrame System™ and you can add any Custom Made Connecting Panels of your choice**

**EACH UNIT USES ONLY 1/4 OF 1U RACKSPACE**

#### **SUPERIOR SOUND REGARDLESS OF THE HEADSET USED**

**A technological breakthrough that allows any headphone to work perfectly, regardless of make or quality**

Works efficiently with both Professional 1200 Ohm High Impedance Headphone right down to 8 Ohm Consumer Grade Headphones with a clarity never possible before. This is achieved using a brand new Chip set, Proprietary Circuits and Surface Mounted Components for an Ultra Low Signal to Noise Ratio.

#### **DUAL INPUTS SELECTABLE ON FRONT PANEL**

A Toggle Switch on the Front panel allows the user to switch between two connected Inputs located on the Rear Panel.

#### **PERFECT WHEN USED IN HIGH AMBIENT NOISE ENVIRONMENTS**

User will appreciate the extra clarity of its superior sound quality and higher volume that can be controlled by the Gain Control situated on the Front Panel, making the unit perfect when used in noisy environments.

#### **SPECIFICATIONS**

Frequency Response: 15 hz-25 Khz + or - 5 Db

Signal to Noise Ratio: Better than 95 Db

THD better than .01%

4 1/4" Stereo Headphone Jacks on Front Panel
