

Product Description

The first and only audio/video mixer designed especially for DJ and music production applications. The AVM01 is unique in that it incorporates both audio and video mixing in one stand alone, table top (or rack mountable) unit. This feature brings unparalleled convenience to the DJ who previously had difficulty incorporating video into his/her audio set-up. Two separate cross faders (one for audio and another for video) allow the user to mix audio and video separate from one another. No other video mixer offers this amount of flexibility to the DJ/VJ video producer/engineer at anything near this price point

Key Marketing Points

- Audio-Video mixer designed especially for DJ's
- Built-in video effects

Weight:

18 lbs

Dimensions:

20" x 17" x 7" (W x L x D)
