

iDJ MIXING CONSOLE FOR IPOD®

The iDJ is a 2-channel mixer that enables mobile DJs and iPod enthusiasts to seamlessly integrate their portable music libraries with other music and sound reinforcement systems—transforming the iPod from a personal music player into a source playback device. With its compact form factor, comprehensive feature set, and a blue on white aesthetic appeal that blends perfectly with the iPod, the iDJ makes the music more accessible and the party better than ever.

- + Two universal iPod docking stations will accept all model iPods with bottom connector
- + Large iPod navigation controls
- + 3-band EQ with gain control on both channels
- + Dedicated microphone input with tone and level control
- + Phono/line inputs for adding additional devices available on both channels
- + USB connectivity (PC and Mac) enables iDJ to function as a music-loading base
- + iPod's recording capabilities supported by iDJ for voice memos, etc.
- + Turntable spindle receptacle enables placement of the iDJ on a turntable
- + Extruded, anodized aluminum panels and zero tolerance precision switches/knobs for a tight, precise feel
- + Soft touch edge bumper for protection

iPod is a registered trademark of Apple Computer.

HDCD1 PROFESSIONAL DJ MEDIA PLAYER

Imagine your entire DJ collection loaded into one professional, stand-alone product. Imagine the control, the flexibility, and the convenience. Create playlists and search for songs by title, artist, album, or genre.
