Numark

HDCD1 Hard Drive / CD / MP3
Product Overview

Product Description

The HDCD1 is a rack-mountable dual CD player with built-in hard drive, capable of storing an entire DJ collection. MP3s and uncompressed audio files can be ripped from CD, transferred from computer over USB, or recorded through analog inputs.

Two jumbo displays allow easy navigation for creation of playlists. A keyboard connection facilitates searching, and songs and playlists can be searched by title, artist, album, or genre. Song information is instantly available through the internal CDDB^{TM} database, which is updateable via the internet. Included software allows computer file transfers, song and playlist data editing, and exporting song lists as text.

Other advanced features include pitch control, instant start, relay start, and seamless looping. There are multiple play modes fully compatibility with CDR Data (MP3) and CDRW discs.

Positioning

World's first Hard Drive / CD / MP3 solution for the professional DJ

Applications

Club and mobile DJ applications, studio compilations, home music collection

Dimensions and Weight

Controller: 19.0"W x 5.2"H x 3.0"D, 4.0 lbs
