

Product Description

Featuring many of the innovative features found in the TTX, the TT500 is a superior quality turntable boasting Numark's new direct-drive motor that delivers ultra-high torque of 5.0 kgf/cm.

Like the TTX, the TT500 offers an interchangeable aluminum tonearm assembly complete with S-shaped and straight tonearms for heavy scratching or club style spinning. The TT500 offers a replaceable pitch fader, and playback speeds of 33, 45, and 78 rpm. Direction is reversible via a dedicated button, and there are two start/stop buttons. The TT500 also has detachable power and audio connections. Other features include a newly designed target light, an aluminum platter, and a steel top.

Positioning

Premium ultra-high torque direct drive turntable with lower price than TTX and no digital features

Applications

Flexible, professional turntable can accommodate any DJ style
