

CDN25+G

DUAL-DISC KARAOKE CD PLAYER

PROFESSIONAL CD PLAYBACK WITH CROWD-PLEASING KARAOKE CAPABILITY. The CDN25+G is a rack-mountable dual-disc CD player with 2 composite RCA video outputs for CD+G karaoke lyric and graphic display. These outputs connect to video mixers, monitors, TVs, and become active when playing CDs containing CD+G graphics data (commonly used to display karaoke lyrics).

Other features on the CD-R-compatible CDN25+G include an interactive pitch/search wheel; ± 8 or 16% pitch control; rubber buttons; auto cue; S/PDIF digital output; and a sleep mode to save laser life.
