

RACKMOUNT CD PLAYERS

CDN95

PROFESSIONAL DUAL CD/MP3 PLAYER

THE WORLD'S MOST ADVANCED DUAL CD/MP3 PLAYER. The CDN95 builds on the proven technology of the CDN90 and adds MP3 playback capability, so that all of Numark's custom mixing effects can now be applied to MP3 files, with all of the reliability of traditional CDs. These effects include 2 sets of seamless loops per track, scratching via jog wheels, "interlock" auto-beat matching, stutter starts, and programmable track sequencing.

In addition, the CDN95 has been fitted with advanced slot-load CD drives for optimal playback. Numark's exclusive Key Lock feature allows the user to adjust tempo from any point in a song without changing the key. Built-in patented automatic Beatkeeper™ technology allows the user to quickly read song tempo and align tracks with the push of a button. Additional features include: start/brake speed adjustment, "dead-space" elimination, MIDI in/out, digital output and user updateable software.

FEATURES

- Full MP3 playback capability with 2 line text display
- Built-in Beatkeeper™ with auto-mixing and synchronization
- Multiple DSP effects with direct access including reverse
- Saves up to 3,000 cue points in memory, transferable to compatible units
