

Product Description The DM3050 mixer is a basic 3-channel mixer in a 10-inch tabletop design that sports a unique angled face, tapered sides, and distinctive, curved level meters. Features include steep 3-band EQ with rotary kills, flexible crossfader, and multiple input sources.

The DM3050 features two line inputs, three switchable phono/line inputs, and one 1/4" microphone input, as well as master, record, and zone outputs. A replaceable crossfader offers reverse and slope control. All three channels include 3-band EQ with rotary frequency kills and pre-fader listen (PFL). Other features include tone control on the microphone input, fader start, split or blend cueing, and theft-proof knobs.

Positioning

A great value in straight-ahead 3-channel DJ mixing

Applications

Tabletop DJ mixing

Key Features and Benefits

- 1) Stylish 3-channel design
 - Angled face
 - Tapered sides
 - Multi-colored, curved level meters
