

DXM06

2-CHANNEL DIGITAL TABLETOP MIXER

ADD PROFESSIONAL EFFECTS TO THE MIX. Options are a good thing to have when you're a DJ, and the DXM06 has options to spare. Make a filtered sound pulse to the groove. Fade in some tape echo and hit the beat perfectly. Give a shout-out through the vocoder. Work the Beat Sync tap button, wet/dry fader, parameter knob, or illuminated FX selector. The DXM06 features 12 at your command DSP effects for total DJ vibe enhancement.

With its modern blue-and-silver design and illuminated FX selector panel, it looks as good as it performs. For top-notch DJ effects that will wow any dancefloor, fix your mix with the DXM06.
