

MOBILE COMPUTER DJ IN A BOX

COMPLETE MOBILE DJ RIG FOR YOUR COMPUTER

- DMC2 DJ Hardware Controller
- CUE DJ Software [full version]
- DJ|iO Audio Interface
- PHX DJ Headphones

TRANSFORM YOUR LAPTOP OR DESKTOP COMPUTER INTO A POWERHOUSE MOBILE DJ WORKSTATION. All the hardware and software you need is included in a single box.*

MOBILE COMPUTER DJ IN A BOX INCLUDES:

DMC2 CONTROLLER

Numark's flagship rack-mount DJ software controller, features a rugged metal 3U rack-mountable frame design. Mobile DJs can quickly and easily add the power and versatility of software-based mixing to their arsenal. The DMC2 is preconfigured to work seamlessly with CUE software.

- High-speed USB 2.0 Interface
- Designed to interface with CUE and other popular DJ programs
- Solid 3U 19" metal construction
- True instant-start and scratching of audio and video files with included CUE LE 5 (full-screen video output requires full CUE software)

CUE 5 DJ SOFTWARE

Create the ultimate mix with Numark's professional DJ software and your personal computer. Monitor through headphones and visually on your computer screen. Output directly to a club's sound and video systems. CUE 5.0 supports CD+G Karaoke formats. Mix, scratch, juggle, interchange and sample audio and video files. CUE 5.0 includes loads of new enhancements including FreeFrame plug-in compatibility, Smart Database management, and a powerful new Global Search function.

- Mix, scratch and interchange audio or video
- Smart Database Management – automatically checks database integrity at launch and fixes errors by cleaning out missing and removed files
- Global Search – files are automatically added to a global search database allowing you to quickly find files stored on multiple folders and drives
- Visual waveform overlay of beats – increases visual clarity

DJ|iO AUDIO INTERFACE

The DJ|iO is compact and rugged enough to live in your gig bag, but powerful enough for a wide range of computer audio needs.

- USB 2.0 (single channel operation in USB 1.1)
- Ultra low latency
- 2 independent RCA stereo outputs
- Microphone input with adjustable gain mixed to first stereo pair

PHX DJ HEADPHONES

The PHX is the new standard in pro DJ headphone technology. PHX premium headphones incorporate an isolating, closed-ear design with 50mm neodymium magnet drivers, for professional-quality high output. A special 2-part ear cup design incorporates a rubber/silicone casing for a comfortable and secure fit that rests between ear and shoulder while cueing.

- 50mm neodymium magnet high-output drivers
- Dual closed cups for excellent isolation
- Foldable design for flexibility and storage
- Two sets of interchangeable ear pads included: soft velour and durable leather
- Three detachable cords included: short, long and coiled
