NUVJ

HD/CD/MP3 DIGITAL TURNTABLE

The NuVJ allows DJs to incorporate images and video clips in much the same way as mixing music. With the NuVJ, the VJ can trigger images and video clips, add effects to them, mix them through an onboard DJ style crossfader and tweak them in order to create unique and spectacular shows. The hardware controller works seamlessly with existing DJ gear and the software is compatible with most computers and laptops. The NuVJ is simply easier, better and more affordable than any other VJ product on the market.

FEATURES

- Video sample playback, looping, and effects from multiple sources
- Automated play for stand-alone operation
- Internal generation of artificial patterns and backgrounds (Visualizer)
