

TOTAL COMPUTER DJ IN A BOX

TRANSFORM YOUR COMPUTER INTO A DJ WORKSTATION

- TOTAL CONTROL DJ Hardware Controller
- CUE DJ Software [full version]
- DJ|iO Audio Interface
- HF-125 DJ Headphones

THE PERFECT STARTER DJ KIT THAT USES YOUR COMPUTER AS THE HEART OF YOUR DJ SYSTEM. Everything you need is contained in a single box.*

Total Computer DJ in a Box includes:

TOTAL CONTROL - SOFTWARE CONTROLLER

Total Control is a DJ software controller that gives you the flexibility of a mixer with the processing power of a laptop. It's the ultimate USB-MIDI compliant tool for any performing computer DJ. 31 buttons, 20 knobs and 5 faders send MIDI data from the controller directly to your computer.

- 20 knobs, 5 faders, 31 buttons all send MIDI data
- CUE LE 5 and Traktor LE included with pre-mapped controls and overlays to quickly identify controls
- Easy to learn mixer / CD player layout
- USB bus powered (no adapter needed)

CUE 5 DJ SOFTWARE

Create the ultimate mix with Numark's professional DJ software and your personal computer. Monitor through headphones and visually on your computer screen. Output directly to a club's sound and video systems. CUE 5.0 supports CD+G Karaoke formats. Mix, scratch, juggle, interchange and sample audio and video files. CUE 5.0 includes loads of new enhancements including FreeFrame plug-in compatibility, Smart Database management, and a powerful new Global Search function.

- Mix, scratch and interchange audio or video
- Smart Database Management – automatically checks database integrity at launch and fixes errors by cleaning out missing and removed files
- Global Search – files are automatically added to a global search database allowing you to quickly find files stored on multiple folders and drives
- Visual waveform overlay of beats – increases visual clarity

DJ|iO AUDIO INTERFACE

The DJ|iO is compact and rugged enough to live in your gig bag, but powerful enough for a wide range of computer audio needs.

- USB 2.0 (single channel operation in USB 1.1)
- Ultra low latency
- 2 independent RCA stereo outputs
- Microphone input with adjustable gain mixed to first stereo pair

HF125 DJ HEADPHONES

Don't compromise. The Numark HF-125 headphone set delivers the goods with flexible 7-position independently adjustable dual ear cups, large 40mm Mylar speaker drivers, 6' tangle-resistant cord with 1/4" connector, and padded headband and ear cups.

- Flexible 7-position independent
- Adjustable dual ear cups
- Large 40mm mylar speaker drivers
- 6ft tangle-resistant cord
