

## iDJ<sup>2</sup>

### COMPACT MIXING STATION FOR APPLE iPod® AND USB MASS STORAGE HARD DRIVES

**THE NEW WAY TO DJ.** The Numark iDJ<sup>2</sup> is the only iPod mixing console that provides full control of your music with real-time scratching (via two jog wheels), pitch control, seamless looping, and full cueing. The iDJ<sup>2</sup> features a fresh and innovative new iPod docking system that allows users to play two songs simultaneously from a single iPod without the need of a computer. Users can also hook up multiple mass storage devices including additional iPods, Memory Sticks, and external USB hard drives through rear panel USB ports.

In addition to USB connectivity, the iDJ<sup>2</sup> comes complete with line inputs for audio sources including a microphone, CD players and turntables. This extraordinary mixing console and portable DJ system is also the perfect "Podcasting" workstation. DJs can easily manage their music library using the iDJ<sup>2</sup>'s highly-intuitive graphic interface: the oversized LCD screen offers visual track-profiling.

iDJ<sup>2</sup> supports multiple file formats including MP3, Ogg-Vorbis, AAC,

and FLAC (unprotected).

The iDJ<sup>2</sup> also supports iPod docking and charging, to keep the music playing and the party going all night long.
