For custom ARC mounting applications, please call OmniMount Systems at 1-800-668-6848 or visit us at www.OmniMount.com

## TO USE AN ARC FRAME, YOUR PRODUCT MUST MEET THE FOLLOWING CRITERIA:

• Has mounting dimensions (height and width) that are within the specified OmniMount dimensions (see chart below)
• Is square or rectangular (90° angle between adjacent sides)
• Sharp corners or rounded corners with less than 1.5" diameter
• Has mounting surfaces (the sides) that are parallel or have no more than a 15° deviation from parallel
• Weighs the same or less than the specified weight for each frame type

If you are uncertain whether your product meets this criteria, please contact OmniMount Tech Support for assistance.

ARC ACCESSORIES
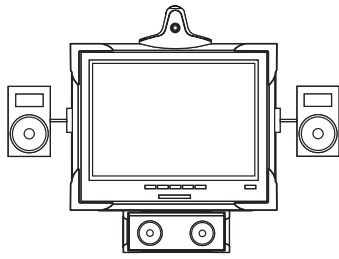

SURROUND SPEAKER ACCESSORY

Speaker Mounting Kits are available for mounting speakers from the sides or bottom of the ARC frame. Maximum allowable weight is 10 pounds per speaker. Note that this adds to the total weight load on the mount.

SMK SF – for frames 13 to 27
**SMK LF** – for frames 32 and up

CABLE, DVD, VCR MOUNT ACCESSORY

A Component Mounting Kit is available for mounting satellite/cable boxes, DVD players and VCRs to the bottom of the ARC frame. Note that this adds to the total weight load on the mount.

CMK SF – for frames 20 to 27
CMK LF – for frames 32 and up

## QUICK INSTALLATION TOOL KIT

A Quick Installation Kit contains specialized tools and adapters to streamline the ARC set-up and install process.

**QIK SF** – for CRT frames 13 to 27 and Speaker frames 6.5SP to 10SP
QIK LF – for CRT frames 32 to 36 and Speaker frames 12SP and 15SP

CONSTRUCTION DETAILS

No need to worry about the assembly since all OmniMount ARCs are shipped pre-assembled, leaving you with the simple set-up of placing your television or speaker inside the frame and mounting it to the wall or ceiling.

Inner Corner

Heavy Steel Corner

Large Non-slip Friction Pads

Aluminum Frame Section

High Strength Steel Aircraft Cables

Outside Corner Cover

Hollow Threaded Sleeve
