Mount Type Key:

Fixed - display mounts flat to wall for lowest profile.

Tilt - display can be tilted for best viewing angle.

Articulated Retractable Mount - display can be tilted, swiveled, panned, and pushed back flat to wall.

Under Cabinet Mount - display can be suspended underneath cabinet or shelf.

If LCD screen is:

- Larger than 20" Not recommended
- 15" to 20" Display hangs under cabinet only Does not flip up and down
- 13" and under Display hangs under cabinet and flips up and down

VESA Mount: Will bolt directly to VESA compliant displays. Non compliant displays will require an optional adaptor plate. Consult the OmniMount Flat Panel Reference Guide for more information.
