- Setup Transmitter - (RG4172BK) use to customize TV to application
- Mounting Brackets - Various types available
- Future Upgrade Cards - As technology advances, the TV is upgradeable to meet future applications.
- Smart Loader for cloning (CLON99BK)

Special Features:

SmartCard™ Integrated Expansion Capability
Allows expandability for future upgrades.

Smart Plug™ Two-Way Addressable Port
Allows for two-way communication between the set and a remote source. Compatible with all major premium entertainment services and third-party control systems, Smart Plug eliminates confusing set-top boxes and makes it easy for guests to use interactive guest services.

Front Control Lockout
Provides the ability to selectively or completely disable front control panel buttons.

ESP™ (Energy Saving Programmability)
Energy saving system that powers television off after a specified period of use. A simple countdown clock can be selectively set to operate from 0-99 hours with automatic clock reset at each power-up.

Security Mountable
Equipped with heavy-duty mounting blocks on the bottom of the cabinet, designed for safe and secure mounting to security brackets.

Volume Management
Programmable minimum/maximum and turn-on volume range. Forces the monitor/ receiver to operate within a user-defined volume range, preventing volume adjustments that are too high or too low.

UPC: 037849912058

Marquee Channel™
Forces specified channel when television is turned on.

Audio/Video Muting
Automatically detects loss of signal and optionally mutes both audio and video.

SmartMute™
Automatically displays closed caption service whenever the user activates the mute function.

Local Preview™ - Channel Guide
Automatically displays channel guide, an onscreen directory of channels and network affiliates, every time television is turned on. After choosing the channel to view, channel guide fades off screen to be displayed again when called up using the remote.

SmartSound™
Automatically detects variations in audio and adjusts to acceptable levels.
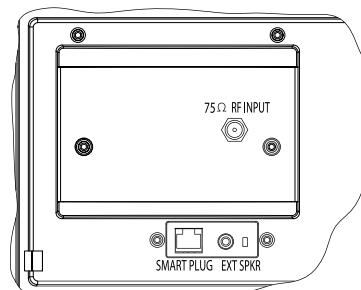

ProPlus Performance Package
These high performance features found only on the Philips PA/PPC products ensure the highest picture and sound quality while providing additional functionality for the most demanding professional applications.
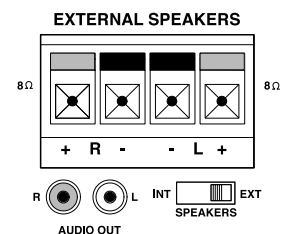

- **Easy A/V Switching:** Provides immediate access to A/V inputs via the TV's front panel or remote control.
- **Event Programming (7 day / 7 event):** Built-in software provides scheduling capability by time and day of week. Unit can be programmed to power-up, tune to a specified channel, and power-down automatically.
- **Digital Comb Filter:** Digital circuitry clearly separates black and white detail from color data virtually eliminating dot crawl and delivering razor-sharp picture performance and increased resolution.
- **Stereo dbx™ Sound**
- **Switch Control of Internal/External Speakers**
- **24-Hour Clock**
- **29-Button Universal Remote**

Optional Cards
- MonCard
- Net1Card
- ProKit1
- ScanCard III w/Net1
- Net3Card
