- Pick up sensor that activates screen

- Virtually unlimited macro functionality

- Recharging dock with NiMH battery pack included

ProntoPro TSU6000

TSU 6000

Home Theater Control Panel

The **cutting-edge design** reflects the elegance, flexibility and customization of the ProntoPro even more than the original Pronto. Its elegance is accentuated by the sleek silver casing, combined with a bright 256-color LCD display. Additionally, a pick-up sensor activates the LCD display upon lifting the device.

The **interactive user interface** allows maximum flexibility for even the most sophisticated home entertainment systems. The dynamic, user friendly graphical set up is supplemented with programmable direct access buttons to enhance its flexibility as well as its customization.

8MB of memory enables the creation of larger custom configuration files, thereby meeting the need of every home theater owner to create a user-friendly remote that allows them to operate their devices with one button press.

The built-in **universal database** contains IR codes for over 500 brands, as well as the option of RF transmission for multi-room control. The capability to send RF signals to an optional RF module expands your customization even further by allowing you to address components in other rooms or in cabinets.

Compatibility is guaranteed by the standard external ports, a two-way IR input/output coupled with a two-way RS232 communication serial port. These also make it easy to upgrade with future components and applications.

ProntoProEdit software to further customize the ProntoPro is included on CD-Rom and freely available on the Internet.

Specifications

• Direct access buttons	mute
	channel up/down
	volume up/down
	page up/down
	2 free programmable buttons
	backlight button
• Send/learning IR eyes	
• Hardware	
Built-in IR codes	549 brands
IR operating distance	up to 33 ft (10 m)
IR operating angle	± 30 degrees (@16ft or 5 m)
IR learning frequencies	up to 56 kHz and 455 kHz
Automatic power mgmt	auto power up/down
Battery type	rechargeable AAA battery pack (included)
• LCD	
Display type	FSTN
Dynamic LCD input	finger or capped pen
Resolution	320 x 240, 0.24 mm pitch
Position	portrait
Number of colors	256
Dimensions	3 x 2.3 inches (77 x 58 mm)
• Environment	
Operating temperature	40°f-113°f (5°c-45°c)
Storage temperature	-13°f-158°f (-25°c-70°c)
• Memory	
SRAM	512 KB
Flash	8 MB
• Backlight luminance	output 45 Cd/m2
• Audio	Piezo with adjustable volume
• Processor	Motorola DragonBall mc68328
• PC link	RS232 serial port
• Weight	8.8 oz or 250 g with batteries
• Dimensions	5.6 x 3.7 x 1.3 inches (141 x 94 x 32 mm) (length x width x height)
• Warranty	1 year
• Package contents	ProntoPro remote control, docking station, serial cable, instructional manual, warranty and registration cards, rechargeable battery pack and ProntoProEdit software package on CD rom
