16 AWG cables 1/4" female in line jack to a Speakon NL2FC Excellines 16 AWG two conductor portable speaker wire with Speakon (NL4FX) wired single circuit (circuit 1+, 1-) female to 1/4" female phone jack.	S16NQF-1	1	\$21.49

StageMASTER

	Model Number	Length in Feet	Suggested Resale
StageMASTER There is always a need for inexpensive products, for starving musicians, civic and religious groups with limited budgets, for price sensitive buyers and for applications in which wear and tear just do not exist. StageMASTER speaker cables are inexpensive, built using 100% American parts and 100% American wire (Oops! Banana plugs used on these cables are made in China). 16 gauge cable is used here to keep costs low.	SR16-5	5	\$13.49
	SR16-10	10	\$14.49
	SR16-25	25	\$18.49
	SR16-50	50	\$23.99
	SR16BQ-25	25	\$17.99
	SR16BQ-50	50	\$23.49

Analog Patch Cables

PQR shown above.

Single Unbalanced Patch (P) Cables

Pro Co patch cables were designed to connect unbalanced signals in today's sound and recording systems. They are constructed using Pro Co 120SM wire and ShowSavers 1/4" plugs and/or Pro Co HD RCA connectors.

- QR (1/4" to RCA) and RR (RCA to RCA) configurations to connect consumer gear and semi-pro gear together.
- Using Pro Co 120SM ArmorFlex single conductor jacketed wire
- 10 year warranty

PQR Pro Co 120SM wire, single conductor spiral shield wire with a ShowSavers 1/4" plug on one end and a Pro Co HD RCA phono plug on the other.

Model Number	Length in Feet	Suggested Resale
PQR-3	3	\$16.99
PQR-5	5	\$17.49
PQR-10	10	\$18.49
PQR-20	20	\$21.99

PRR Pro Co 120SM wire, single conductor spiral shield wire with a Pro Co HD RCA phono plug on each end.

Model Number	Length in Feet	Suggested Resale
PRR-3	3	\$15.49
PRR-5	5	\$15.99
PRR-10	10	\$17.49
PRR-20	20	\$20.99

DK shown above

Dual Unbalanced Keyboard (DK) Patch Cables

Dual Keyboard cables were designed to connect today's stereo keyboard outputs to mixers for stage and recording use. They are constructed of two single conductor cables "twinned" together for ease of use and transportation and are offered with ShowSavers 1/4" phone plugs or Pro Co HD RCA male ends to accommodate a wide variety of input and outputs.

- QQ (1/4" to 1/4") configurations, RR (RCA to RCA) configurations and QR (1/4" to RCA) configurations, to connect consumer gear (RCA) to semi-pro (1/4") gear
- Twinned single-conductor ArmorFlex jacketed spiral shield wire (Pro Co 2120SM)
- ShowSavers brand 1/4" phone plugs and Pro Co HD RCA connectors
- 10 year warranty

DK Pro Co 2120SM 2-conductor patch cable with a spiral shield and two ShowSavers 1/4" connectors on each end

Model Number	Length in Feet	Suggested Resale
DK-3	3	\$26.99
DK-5	5	\$28.99
DK-10	10	\$32.49
DK-20	20	\$38.99

DKQR Pro Co 2120SM 2-conductor patch cable with a spiral shield and two ShowSavers 1/4" phone plugs on one end to two Pro Co HD RCA phono plugs on the other

Model Number	Length in Feet	Suggested Resale
DKQR-3	3	\$26.49
DKQR-5	5	\$27.49
DKQR-10	10	\$30.49
DKQR-20	20	\$37.49

DKRR Pro Co 2120SM 2-conductor patch cable with a spiral shield with two Pro CO HD RCA plugs on each end.

Model Number	Length in Feet	Suggested Resale

DKRR-5	5	\$25.49
DKRR-10	10	\$28.49
DKRR-20	20	\$35.49

Analog Patch Cables

Did you really want to spend the time to wire this all by yourself? That's what we thought!

Rac-Kables (RK)

A practical solution for wiring racks! Pre-wired on one end with a variety of connectors and pre-cut to 10', 20' or 30' lengths. Just plug them in and run the blunt end to the correct length, cut and terminate. This unique system reduces rack wiring time substantially and costs almost nothing to keep on the shelf, ready to wire.

- All assemblies use Pro Co AC1, a CL2 rated, and 100% foil shielded cable (like Belden 8451 or West Penn 291), an excellent pull cable
- Connectors are ShowSavers T/S and T/R/Ss, Neutrik XLRs and Pro Co HD RCAs
- Cuts time to wire audio racks in half.

RKXM Pro Co AC1 wire and Neutrik XLR male connector

RKXF Pro Co AC1 wire and Neutrik XLR female connector

RKQ Pro Co AC1 wire and ShowSavers 1/4" T/S plug

RKBQ Pro Co AC1 wire and ShowSavers 1/4" T/R/S plug

RKR Pro Co AC1 wire and Pro Co HD RCA phono plug

Model Number	Length in Feet	Suggested Resale

RKBQ-20	20	\$14.99
RKBQ-30	30	\$17.49
RKR-10	10	\$12.49
RKR-20	20	\$14.99
RKR-30	30	\$17.49

PJ shown above

PJ (Phone Jack) Cables

The phone company invented the phone plug in 1885, a long time ago. They are built differently than the 1/4" connectors we are used to seeing in audio, but perform exactly the same function in military type jackfields. These 1/4" tip/ring/sleeve (T/R/S) mil spec cables use Neutrik's especially designed connectors and Pro Co's 424BK wire to make these sturdy, long-life assemblies. These connectors are typically used in theatres and Broadway shows and are not commonly used in the portable world.

- Sold in 1/4" to 1/4" mic spec cables
- Sold in 1/4" mil spec to XLR male or female connectors
- 20 year warranty

	Model Number	Length in Feet	Suggested Resale
PJ Using Pro Co's 424BK quad mic cable with Kevlar in the core and one Neutrik mil spec 1/4" connector on each end.	PJ-2	2	\$39.99
	PJ-3	3	\$40.49
PJXF Using Pro Co's 424BK quad mic cable with Kevlar in the core and one Neutrik mil spec 1/4" connector on one end and one Neutrik XLR female connector on the other.	PJXF-2	2	\$39.99
	PJXF-3	3	\$40.99
PJXM Using Pro Co's 424BK quad mic cable with Kevlar in the core and one Neutrik mil spec 1/4" on one end and one Neutrik XLR male connector on the other.	PJXM-2	2	\$39.49
	PJXM-3	3	\$40.99
PJBQ Using Pro Co's 424BK quad mic cable with Kevlar in the core and one Neutrik mil spec 1/4" on one end and one ShowSavers 1/4" T/R/S plug on the other.	PJBQ-2	2	\$39.99
	PJBQ-3	3	\$40.99

Analog Patch Cables

TT shown above

TT (Tiny Telephone or "Bantam" Plugs) Cables

Most professional recording studios use TT T/R/S patchbays because they offer 96 patch points in a single-space 19" rack panel. Our TT cables are ShowSavers Bantam plugs and Pro Co miniature wire to perform this important patching function.

- Use for high density needs where rack space is at a premium
- ShowSavers brand TT plugs are used in our assemblies
- Available in TT to TT versions, and also TT to XLR male and female connectors or 1/4" T/R/S phone plugs.
- 20 year warranty

	Model Number	Length in Feet	Suggested Resale
TT Using Pro Co 224SM miniature mic cable with spiral shield assembled to a ShowSavers TT plug on each end.	TT-2	2	\$32.49
	TT-3	3	\$33.49

TTXF Using Pro Co 224SM miniature mic cable with spiral shield assembled to a ShowSavers TT plug on one end and a Neutrik XLR female on the other.

TTXF-2	2	\$32.49
TTXF-3	3	\$33.49

TTXM Using Pro Co 224SM miniature mic cable with spiral shield assembled to a ShowSavers TT plug on one end and a Neutrik XLR male on the other.

TTXM-2	2	\$32.49
TTXM-3	3	\$33.49

TTBQ Using Pro Co 224SM miniature mic cable with spiral shield assembled to a ShowSavers TT plug on one end and a ShowSavers 1/4" T/R/S connector on the other.

TTBQ-2	2	\$32.49
TTBQ-3	3	\$33.49

"Y" Cords

Pro Co makes standard "Y" cords, the most basic of which are constructed with one 1/4" phone plug (male or female) to two 1/4" phone plugs (male or female). The same concept can be built using male and female XLR connectors and RCA phono plugs.

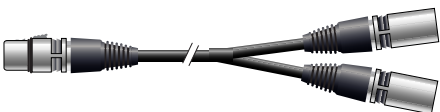

- ShowSavers plugs, Neutrik XLRs and Pro Co HD RCA connectors are used.
- Pro Co 2120SM or 224SM wire is typically used.
- 10 year warranty

	Model Number	Length in Feet	Suggested Resale
YGQF2Q Pro Co 2120 SM patch cable with spiral shield with a 1/4" female inline phone jack to two ShowSavers phone plugs	YGQF2Q-1	1	\$29.99

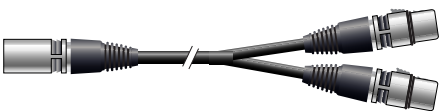

YGQ2QF Pro Co 2120SM patch cable with spiral shield with a ShowSavers 1/4" phone plug to two 1/4" female inline phone jacks.

YGQ2QF-1	1	\$36.49

YGQ2R-3	3	\$22.49
YGQ2R-5	5	\$24.49
YGQ2R-10	10	\$27.49

Analog Patch Cables

Insert Patch Cables

Another type of “Y” cord, insert patch cables allow mixing consoles to send/return signals to an outboard effect processor, say a digital reverb. Typically the I/O (inputs/outputs) start as a T/R/S 1/4" output jack on the mixing console. Sends typically go through the tip and returns through the ring and there is a common ground, the sleeve. The cable needs to be wired properly and each end needs to be identified for the user, to ensure proper hook-ups. Obviously, a wide variety of insert patch cables is necessary to accommodate the wide variety of processors available.

- T/R/S ShowSavers plugs, Neutrik XLRs and Pro Co HD RCA connectors
- Pro Co 2120SM wire is typically used here
- 10 year warranty

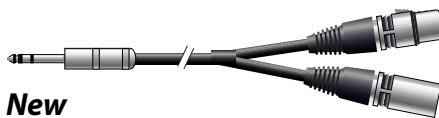

IPBQ2R Pro Co 2120 SM patch cable with spiral shield with a ShowSavers 1/4" T/R/S connector on one end to two Pro Co HD RCA phono connectors on the other.

Model Number	Length in Feet	Suggested Resale
IPBQ2R-3	3	\$25.49
IPBQ2R-5	5	\$26.99
IPBQ2R-10	10	\$30.49
IPBQ2R-20	20	\$38.49

New

IPRBQXFXM Pro Co 2120SM patch cable with spiral shield with a ShowSavers T/R/S male connector to a Neutrik female (send) and a Neutrik male (return). Wired ring on the T/R/S to pin 2 on the female XLR and tip on the T/R/S to pin 2 on the male XLR. Pins 1 and 3 are bridged on the XLRs. These are rarely used today only when the processor uses unbalanced XLR I/Os.

IPRBQXFXM-3	3	\$33.99
IPRBQXFXM-5	5	\$35.99
IPRBQXFXM-10	10	\$37.99
IPRBQXFXM-20	20	\$47.49

New

IPTBQXFXM Pro Co 2120SM patch cable with spiral shield with a ShowSavers T/R/S male connector to a Neutrik female (send) and a Neutrik male (return). Wired tip on the T/R/S to pin 2 on the female XLR and ring on the T/R/S to pin 2 on the male LXR. Pins 1 and 3 are bridged on the XLRs. These are rarely used today only when the processor uses unbalanced XLR I/Os.

IPTBQXFXM-3	3	\$33.99
IPTBQXFXM-5	5	\$25.99
IPTBQXFXM-10	10	\$37.99
IPTBQXFXM-20	20	\$47.49

NOTE: many custom configurations of Y-cables, both balanced and unbalanced are available. Please check with the factory for pricing and specifications. Insert snakes can be found on page 23.

Analog Patch Cables

Ameriquad Balanced Patch Cables

Professional balanced patch cables using custom ShowSavers and Neutrik XLR plugs, each with gold contacts and Pro Co's 424BK quad mic cable for the ultimate in looks and performance for professional installations. Balanced line cables are assembled using T/R/S connectors in combination with either XLR male or female connectors. They are needed in the trade because mixer manufacturers use either T/R/S or XLRs depending on real estate or price issues.

- All black housings for a professional look
- Pro Co 424BK 4-conductor bi-wire technology assemblies
- ShowSavers 1/4" connectors and Neutrik XLRs are used
- 20 year warranty

New

AQBP Pro Co's 424BK ArmorFlex jacketed 4-conductor cable with 96% braided shield to custom black-handled ShowSavers T/R/S phone plugs on each end.

Model Number	Length in Feet	Suggested Resale

AQBPBQBQF-3	3	\$43.99
AQBPBQBQF-5	5	\$46.49
AQBPBQBQF-10	10	\$51.49
AQBPBQBQF-20	20	\$61.99

Several connector options, such as right angle plugs and gold connectors are available. See page 28 for details and pricing.

Analog Patch Cables

Balanced Patch Cords

Balanced lines are terminated using XLR connectors, T/R/S 1/4" connectors and combinations of the two connector styles. Balanced patch cables are needed to offer options for hooking XLR outputs to T/R/S inputs, and so on. Obviously, a variety of options is necessary, due to the whims of the manufacturers. The basic balanced patch cables are included herein for your convenience. We make lots of different ones on a custom basis.

- Neutrik XLRs
- G & H ShowSavers
- Pro Co 224S wire
- 5 year warranty

BP Pro Co's 224S Armorflex jacketed 2-conductor cable with spiral shield with ShowSavers T/R/S phone plugs on each end.

Model Number	Length in Feet	Suggested Resale

IPMB2XM-5	5	\$34.49
IPMB2XM-10	10	\$36.99
IPMB2XM-20	20	\$42.49

IPMB2XF From mixer or dat machine outputs to soundcards or minidisk inputs. Mini balanced to two XLR females.

IPMB2XF-3	3	\$33.99
IPMB2XF-5	5	\$34.99
IPMB2XF-10	10	\$37.49
IPMB2XF-20	20	\$42.99

RG6BNC

RG59UBNC

Video Cables

Pro Co video cables will start with modest offerings and grow as we are presented with the cables the market really wants us to build. We are already heavily involved in video panel connectors with our Plateworks product line. The following are our first two video cable products.

High-speed **1649A (RG6)** Belden cable and Neutrik rear twist NBNC75 75Ω connectors for wider bandwidth

Model Number	Length in Feet	Suggested Resale
RG6BNC- 3	3	\$32.49
RG6BNC- 5	5	\$34.99
RG6BNC-10	10	\$39.99
RG6BNC-20	20	\$47.99

Standard **1505A (RG59U)** (31-71008-1RFX) Belden cable and Amphenol 75Ω BNC connectors for standard transmission speeds.

RG59UBNC - 3	3	\$33.49
RG59UBNC- 5	5	\$35.49
RG59UBNC-10	10	\$41.99
RG59UBNC-20	20	\$52.99

We will gladly build any length of any of these cables, as well as any other video cable constructions that you need. Call the factory for details and a price.

Digital Patch Cables

MIDI (Musical Instrument Digital Interface) Cables

MIDI, designed about 1983-84 allows digital equipment to “talk” to each other in a non-analog environment. The standard uses as 5-pin DIN plug but the circuitry uses three of the terminals. Occasionally manufacturers of various gear will use the other two terminals for time code.

- Solid-shell DIN connectors only (split shells break too easily)
- Pro Co’s 424F wire (four, 24 gauge conductors, 100% foil shield)
- All five pins connected
- 5 year warranty

Model Number	Length in Feet	Suggested Resale
MIDI-3	3	\$15.99
MIDI-5	5	\$16.49
MIDI-10	10	\$18.49
MIDI-15	15	\$20.49
MIDI-20	20	\$22.49
MIDI-25	25	\$24.49
MIDI-50	50	\$34.99

S/P DIF (Sony/Philips Digital Interface Format)

Basically S/P DIF is a 75Ω version of an RCA to RCA cable, with a tightened tolerance for keeping the 75Ω impedance consistent foot to foot along the wire. The cable is used to hook up consumer grade digital products, Walkman’s and MP3 players.

- Gold plated RCA heavy duty connectors
- Pro Co 125BD wire (one conductor, 25 gauge, braided shield, digital)
- 10 year warranty

Model Number	Length in Feet	Suggested Resale
SPD-1	1	\$22.99
SPD-2	2	\$25.49
SPD-3	3	\$25.99
SPD-5	5	\$27.49
SPD-10	10	\$31.49
SPD-15	15	\$34.99
SPD-20	20	\$38.99
SPD-25	25	\$42.99
SPD-30	30	\$46.99

AES/EBU (Audio Engineering Society/European Broadcast Union)

A cable that looks exactly like a standard low impedance microphone cable (our AES cable is blue in color so users can tell the difference between their digital and analog cables on stage). The connectors are Neutrik digital XLR connectors and the wire is Pro Co’s 222BD (two conductors, 22 gauge, braided shield, digital). The wire’s impedance is 110Ω to meet the specification.

- Gold plated XLR 110Ω Neutrik connectors
- Pro Co’s 222BD 110Ω digital cable
- 10 year warranty

Model Number	Length in Feet	Suggested Resale
AES-3	3	\$33.49
AES-5	5	\$34.99
AES-10	10	\$38.99

DMX Lighting Control Cable

Not really an audio cable, but a 5-conductor cable used to transmit digital control signals from DMX lighting mixing consoles to the various lights in the system. The original spec called out by the manufacturer was for a 5-pin XLR connector. The control circuit only uses three of the five pins.

- Standard 5-pin Neutrik XLR connectors
- 424BK wire
- 20-year warranty

Model Number	Length in Feet	Suggested Resale
DMX-3	3	\$47.99
DMX-5	5	\$50.49
DMX-10	10	\$55.49
DMX-15	15	\$60.49
DMX-20	20	\$69.49
DMX-25	25	\$70.49
DMX-50	50	\$95.49
DMX-100	100	\$145.99
