DIGITAL SNAKE SYSTEM

mts

Touch Screen Remote Controller

- » Dedicated system control panel
- » Can be inserted anywhere within the network
- » POE 802.3af compliant

DESCRIPTION:

The Momentum mts is the touch screen remote controller for Pro Co's 2nd generation digital snake system. The mts provides a user interface through which all functions of the entire Momentum network can be accessed. POE compliant, the mts can be used anywhere within the

Momentum network. The mts also stores system scene memory, keeping instant recall of your configurations at your fingertips. The mts also facilitates future upgrades of Momentum system firmware.
