Less noise more sound

## DELTA

stereo microphone

This is a stealthy, miniature *stereo* microphone you can pack *anywhere* and get a rich, hi-fidelity recording when used with your Digital recorder.

Uni-directional Stereo: Merges Left and Right channel sound originating in front of the microphone while minimizing surrounding sounds behind the microphone; is an excellent choice for recording vocalists, solo or ensemble instrument performances.

The 'Delta' mic is housed in an anodized, aircraft aluminum housing for durability, reliability, and RF (radio frequency) rejection. Two omni directional back electret microphone's are set 60° apart for maximum stereo efficiency. This is an ideal situation for any stereo recording.

If you're a student, journalist, film or audio student and need to get a quick recording this is the device for you. No fussing with awkward wires and cables, just plug it into the mic jack on your recorder and your good to go.

### **Specifications:**
