DJ/MI GEAR
SLANT DELUXE
RACK SERIES

Unique storage cover option available for selected models only

The **Slant Deluxe Rack Systems** series is available with a 10U slanted top rack for convenient mixer/CD controller placement, and a range of 3U to 16U vertical racks for amplifiers or effects units. Cases include 18" rack depth and removable top and front covers. Unique, latchable, removable, hinged door at the rear allows easy access to your gear for convenient connections. Accommodates virtually any professional electronics unit. The rugged construction and industrial grade hardware provide unparalleled protection for your entire system.

RRMW: No need to use awkward side tables to hold your extra gear! Road Ready wings mount easily to the top of your rig and provide much needed additional working space at a convenient operating height. Use these wings to accommodate your extra turntables, vinyl, or CDs; the choice is yours! No more cumbersome extra accessory cases to carry, all our Road Ready wings come with a 1U metal drawer which fits snugly into any of our Slant Deluxe Rack systems for convenient transport. Option available with all Road Ready Slant Rack models 6U and larger.

RR6WD: This highly functional rolling base unit provides mobility (complete with integral locking brakes) for those times when you need to move your gear from gig to gig. Simply mount all **Road Ready Slant Deluxe Rack** and **Amplifier Deluxe Rack** systems on top of the RR6WD for convenient transport and operation. The RR6WD raises your Road Ready rack 17" to a more convenient operating height. Includes heavy duty, 6U pull out drawer for extra storage of cables and accessories.

RRWAD: CasterKit, 3 1/2" heavy-duty casters with integral locking brakes provide convenient mobility with any **Road Ready Slant Deluxe Rack** or **Amplifier Deluxe Rack** system. Simply remove the rubber feet from your Road Ready rack system, secure the RRWAD using our easy to follow instructions, and you're mobile!

Cable Port: Unique port with protective plate allows convenient routing of AC and phono cables through the rear of the case.

Removable Rear Access Panel: A latchable hinged door at the rear of the case allows easy access to your gear for convenient connections.

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

Rack Rails: Heavy-duty pre-tapped rack rails are used to secure your electronics. Mounting hardware included.

Castors: 3 1/2" heavy-duty casters with integral locking brakes provide convenient mobility with any RR slant rack system. (Optional)

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

MI GEAR
AMPLIFIER DELUXE
RACK SYSTEMS

Removable Storage Compartment: Removable storage compartment located within the case's cover, provides the ideal place to store all those messy cables and accessories. (Specified models only)

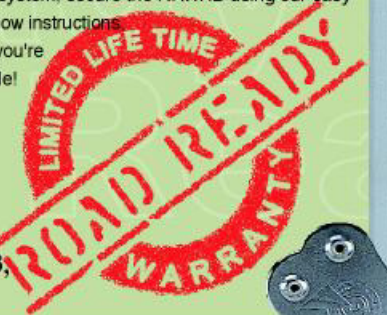

The **Amplifier Deluxe Rack Systems** series is available in a complete array of sizes ranging from 2U to 18U models. Dual rack rails (mounted front and back at 18" rack depth) allow the flexibility to accommodate virtually any amplifier built for professional use. Each case includes two removable covers. Rugged construction and hardware provide unparalleled protection from abuse. Removable, built-in storage compartments located within Road Ready case covers, provide the ideal place to store all those messy cables and accessories. Storage compartments available with the following Road Ready models: RR8USAD, RR12USAD and RR18USAD.

RR6WD: This highly functional rolling base unit provides mobility (complete with integral locking brakes) for those times when you need to move your gear from gig to gig. Simply mount all **Road Ready Slant Deluxe Rack** and **Amplifier Deluxe Rack** systems on top of the RR6WD for convenient transport and operation. The RR6WD raises your Road Ready rack 17" to a more convenient operating height. Includes heavy duty, 6U pull out drawer for extra storage of cables and accessories.

RR6WR: The same rolling base system as the RR6WD, but with an additional 6U rack mount space, instead of a pull out drawer. Securely mounts all **Road Ready Slant Deluxe Rack** and **Amplifier Deluxe Rack** systems for convenient transport and operation.

RR12UADS: Another design breakthrough from Road Ready. Although we've already established Road Ready cases as the most bulletproof in the industry, we've gone a step further with this shock-mounted amp case-within-a-case. A unique integral suspension system will get your gear through situations where the ultimate in protection is required. CasterKit included. Other sizes available by special order.

RRWAD: CasterKit, 3 1/2" heavy-duty casters with integral locking brakes provides convenient mobility with any **Road Ready Slant Deluxe Rack** or **Amplifier Deluxe Rack** system. Simply remove the rubber feet from your Road Ready rack system, secure the RRWAD using our easy to follow instructions, and you're mobile!

UNIQUE ROAD READY PRODUCT FEATURES

Cable Port: Unique port with protective plate allows convenient routing of AC and phono cables through the rear of the case.

Casters: 3 1/2" heavy-duty casters with integral locking brakes provide convenient mobility with any RR rack system.

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Front Panel Access: Unique front panel design with removable faceplate allows access to front mixer controls and headphone jacks.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

Hinges: Quick-fit hinges allow easy top removal and installation while providing secure latching.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Pick-&-Fit Foam: Lets you easily customize your case to fit your most uniquely shaped equipment via our Pick-&-Fit technology.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

Protective Back Plate: A secure plate at the rear of the case restricts access to the interior, keeping connections and wiring secure.

Pull Out Handle: This innovative handle extends from the case and can be hidden or locked into a fully extended position for easy pushing or pulling.

Rack Rails: Heavy-duty pre-tapped rack rails are used to secure your electronics. Mounting hardware included.

Removable Rear Access Panel: A latching hinged door at the rear of the case allows easy access to your gear for convenient connections.

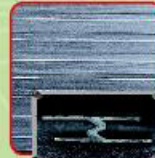

Removable Storage Compartment: Removable storage compartment located within the case's cover, provides the ideal place to store all those messy cables and accessories.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Wheels: Unique low profile innovative wheel design allows convenient mobility.

Wings: Mount easily to the top of your rig and provide much needed working space at a convenient operating height.

Z-Lock Foam: Lets you customize the inner length, width and height of your Road Ready case to fit most of your keyboards.

Warranty

Road Ready, of Long Beach California, U.S.A. warrants to the ORIGINAL OWNER of each new Road Ready product (provided it was purchased at an Authorized Road Ready dealer) that it is free of defects in material and workmanship and that each product will meet or exceed all factory published specifications for each of our respective models. Road Ready agrees to repair or replace (at its discretion) all defective parts at no charge for labor or materials. Road Ready will correct any defect, regardless of the reason for failure (except as excluded) by repair or replacement. Road Ready will remedy the defect and ship back the product to the customer within a reasonable time after receipt of the defective unit at a Road Ready Authorized Service Center.

DJ GEAR
 TURNTABLE CASES
 DJ MIXER CASES

Pull Out Handle: This innovative handle extends from the case and can be hidden or locked into a fully extended position for easy pushing or pulling.

Wheels (W designated models only): Unique low profile innovative wheel design allows convenient mobility.

Cable Port: Unique port with protective plate allows convenient routing of AC and phono cables through the rear of the case.

Front Panel Access: Unique front panel design with removable faceplate allows access to front mixer controls and headphone jacks.

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

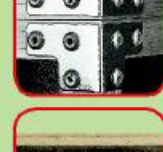

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

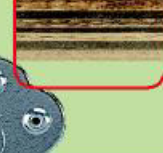

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

These rugged cases provide all the protection you'll need when transporting your electronics even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order. Road Ready offers the most complete line of mobile DJ products on the market, with special features designed especially for the mobile DJ. Our DJ cases provide the ultimate in travel insurance for your turntables and other valuable equipment, and include innovations that make Road Ready cases a leader in the industry.

RR1200BMK2: This top-of-the-line turntable case includes a unique modular poly-foam padding system that makes it easily adaptable to any turntable on the market. The interior high-density foam padding is designed to precisely restrain your precious turntable and protect it from any abuse or damage. This unique case is the ideal protection for any professional turntable, including the industry standards: Technics 1200's and Vestax PDX2000 models.

RR1200HW + RR1200S: This innovative system combines two turntable cases and an entire transport system in one compact unit. Includes low profile wheels and a pull out handle that converts the RR1200HW into a rolling equipment carrier. Stack our Road Ready RR1200S turntable case on top, and you're off and rolling. Available separately - RR1200HW: Turntable case with wheels and handle. RR1200S: Turntable case with transport locking mechanism.

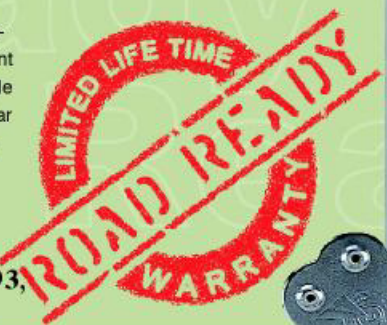

RR10MIX: A rugged 10" mixer case designed to fit in between two RR1200BMK2 cases. Designed with a unique removable front panel for access to front mixer controls. Fits most 10" DJ mixers available on the market.

RRBB: A rugged Battle Bridge with all the necessary hardware for mounting your 10" mixer between two Road Ready turntable cases.

TL-1200AS: You knew Road Ready was tough, but this case shows we also know how to be stylish. With velcro attached spacers, this Euro-style case provides precise restraint of virtually any professional turntable design including the highly popular Technics 1200's and Vestax PDX2000 models.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

These rugged cases provide all the protection you'll need when transporting your electronics even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order. designed These DJ cases are designed to protect the "head unit" of any professional DJ audio system - your turntables and mixers. Constructed with rugged exteriors to resist abuse, and padded with high-density foam for increased protection; these cases are the ultimate for the professional mobile DJ.

RRDJ10: Designed to securely protect your playback source and control center, this case holds two battle positioned turntables, and a 10" mixer between them. Also features a detachable top case lid. The **RRDJ10W** is the same as the RRDJ10, but includes the unique low profile Road Ready wheel system for easy mobility.

RRDJ16PW: This Road Ready case is designed to house two Pioneer CDJ1000 digital CD turntables and a 16" Pioneer mixer. The RRDJ16PW also comes with convenient front panel access to both of your CD drawers and recessed wheels for easy transport.

RRDJ19: This case is designed to protect your investment in high quality DJ playback and mixing systems, and securely holds two conventionally positioned turntables and a 19" mixer between them. Also features a detachable top case lid. The **RRDJ19W** is the same as the RRDJ19 but includes the unique low profile Road Ready wheel system for easy mobility.

RRCDJ1000: This case is designed to protect and transport the extremely popular Pioneer CDJ1000 digital CD turntable. This new high tech CD turntable deserves the ultimate protection that Road Ready cases provide. The **RRCDJ1000** comes with convenient front panel access to your CD drawer.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

These rugged cases provide all the protection you'll need when transporting your PA mixers even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive to its destination in perfect working order. When it comes to custom fitting and protecting your valuable mixers; nobody takes the job more seriously than Road Ready. Our Road Ready cases provide the ultimate in travel insurance for your mixers and other valuable equipment, and include innovations that make Road Ready cases a leader in the industry.

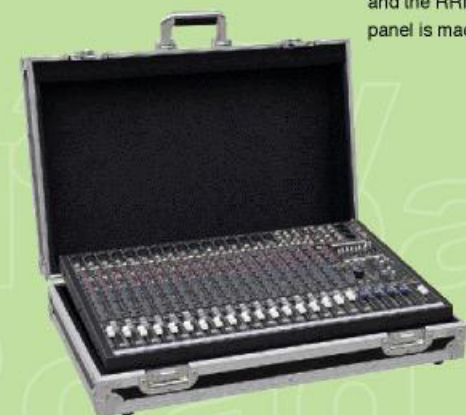

RRM324W: This Road Ready case is designed to fit the Mackie 32.4 PA mixer. It features low profile base and removable cover. This design allows for easy hook-up without need of removing your mixer out of the case. The interior high-density foam padding protects and restrains your mixer for the ultimate in travel protection. Includes low profile wheels for ease of transportation. Built of rugged premium grade 3/8" vinyl laminated plywood with precise extruded tongue & groove construction for positive locking fit with case cover.

RRM244: Smaller than the RRM324W, this case is specially designed to accommodate the Mackie 24.4 mixer. All design features of this case are the same as in RRM324W except that the RRM244 does not come with low profile wheels.

RRCFX20: The Road Ready RRCFX20 case is designed to fit the popular Mackie CFX20 mixer. Like the RRM324W and the RRM244, access to your mixer's rear connection panel is made easy via our unique rear access design.

MI GEAR
KEYBOARD CASES

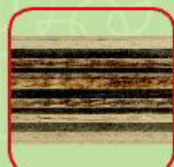

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

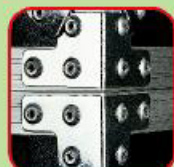

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Rubber Feet: Top quality rubber feet are attached with heavy-duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Wheels (W designated models only): Unique low profile innovative wheel design allows convenient mobility.

Z-Lock Foam: Lets you customize the inner length, width and height of your Road Ready case to fit most of your 61 key keyboards.

These rugged cases provide all the protection you'll need when transporting your keyboards even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order. When it comes to custom fitting and protecting your valuable keyboards, nobody takes the job more seriously than Road Ready. We construct our cases to ensure that your gear will travel with the ultimate in protection. In addition, we design special features that enable you to easily customize your Road Ready cases to fit your most unique equipment transporting needs.

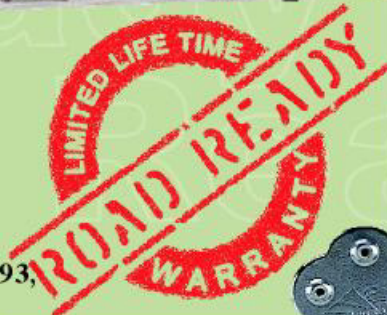

RRKB61W: This case is designed specifically to protect your 61-key keyboards. The Z-Lock foam padding system easily adapts the inside of your case. Easily change the length, width, and height of your Road Ready case by adding or removing layers of our Z-Lock Foam. If you care about your keyboard, you'll want to make sure it gets the ultimate in travel comfort. Includes wheels for easy transport. Accommodates all 61key keyboards 10 1/2" to 16" deep and 39" to 44" long.

RRKB76W: Same unique Z-Lock Foam and other features as the Road Ready RRKB61W, but designed to accommodate 76-key keyboards. Accommodates all 76 key keyboards 11" to 16" deep, 47" to 51" long and 4" to 6 1/2" high.

RRKB88W: Same unique Z-Lock Foam and all other features as the Road Ready RRKB61W and RRKB76W, but designed to accommodate 88-key keyboards. Accommodates all 88 keys keyboards 11" to 20" deep, 52" to 60" long and 4" to 6 1/2" high.

DJ GEAR
LP & CD CASES

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

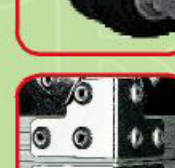

Pull Out Handle: This innovative handle extends from the case and can be hidden or locked into a fully extended position for easy pushing or pulling.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Wheels (W designated models only): Unique low profile innovative wheel design allows convenient mobility.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides absolute resistance to damage and greater structural integrity.

These rugged cases provide all the protection you'll need when transporting your electronics even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order. When it comes to protecting your valuable LP and CD collections, nobody takes the job more seriously than Road Ready. We construct these cases to the same rugged standards as our other pro gear cases so you have the assurance that your music will travel just as safely as all your other equipment.

RRLPW: This mobile version of the RRLP incorporates a unique pull out handle and wheels. Accommodates up to 100 LPs.

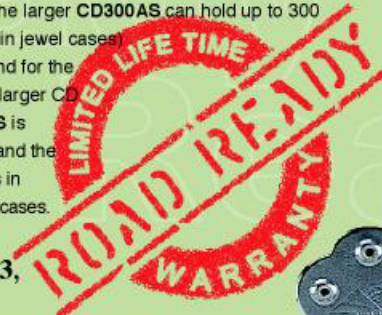

RRLP: A deluxe LP case lined with high-density poly-foam padding will protect your valuable LP collection under the most abusive situations. Accommodates up to 80 LPs.

RRCD100: This heavy-duty, four row design CD case allows you to carry 100 CDs in their original jewel cases or 400 CDs in viewpacks. The RRCD150 offers the increased capacity of 150 CDs in original jewel cases or 500 CDs in viewpacks, housed in a six row configuration.

CD200AS: A Eurostyle, three row design, the CD200AS accommodates 200 CDs in viewpacks or 63 CDs in jewel cases. Rounded edge corners and silver aluminum "stucco" finish give this case a sleek look. The larger CD300AS can hold up to 300 CDs in viewpacks (or 95 in jewel cases) in a three-row design. And for the ultimate in protection for larger CD collections, the CD400AS is designed with four rows and the capacity to hold 400 CDs in viewpacks or 125 in jewel cases.

MICS & UTILITY CASES

Pick-&-Fit Foam: Lets you easily customize your case to fit your most uniquely shaped equipment via our Pick-&-Fit technology. (Select models only)

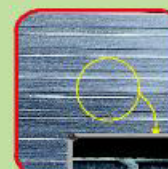

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Wheels (W designated models only): Unique low profile innovative wheel design allows convenient mobility.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Removable Storage Compartment: Removable storage compartment located within the case's cover, provides the ideal place to store all those messy cables and accessories. (Select models only)

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

These rugged cases provide all the protection you'll need when transporting your electronics even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order. When it comes to custom fitting and protecting your valuable recording gear, keyboards, and microphones, nobody takes the job more seriously than Road Ready. We construct our cases to ensure that your gear will travel with the ultimate in protection. In addition, we design special features that enable you to easily customize your Road Ready case to fit your most unique equipment transporting needs.

RRLUC: This case is designed for all your uniquely shaped units. High-density poly-foam Pick-&-Fit inserts give you the flexibility to create the perfect custom storage space. With this case you have the confidence in knowing that your most sensitive electronics such as mixers and wireless mics (like those by manufactured by Shure, AKG and Mackie) will be fully protected under the most rigorous transit conditions.

RRUC: Like the RRLUC, only smaller. It's the ideal case for moderate-size electronics and mics. Just create a layout of the shape and size of your equipment and pick out the poly-foam Pick-&-Fit inserts. Now you've got the perfect customized case for your electronics system!

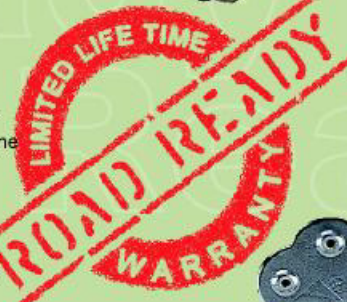

RRDRC: Like the RRLUC, only larger. It's designed for larger size electronics and digital recording studios. Simply pick out the poly-foam Pick-&-Fit inserts and you've got the perfect customized case for your Korg, Akai, or Roland digital recording studios!

RRM12S: This ATA style mic case features the flexibility to hold 6 or 12 mics. The choice is yours, simply remove one half of the padding and create storage room for your cables and accessories. Additional storage available in the removable cover.

M12AS: This Euro style mic case with rounded corners features the flexibility to hold 6 or 12 mics. The choice is yours, simply remove one half of the padding and create storage room for your cables and accessories. Additional storage available in the removable cover.

MI GEAR EFFECT DELUXE RACK SYSTEMS & STANDS

Amplifier Deluxe Rack Series

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

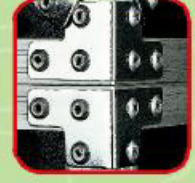

Rack Rails: Heavy-duty pre-trapped rack rails are used front and back (14" in depth) to secure your electronics. Mounting hardware included.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

These rugged cases provide all the protection you'll need when transporting your electronics even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive at its destination in perfect working order.

The **Effects Deluxe Rack Systems** series is available in a complete array of sizes ranging from 4U to 18U models. Dual rack rails (mounted front and back at a 14" rack depth) allow the flexibility to accommodate virtually any variety of audio effects units built for professional use. Its smaller size makes it easier and lighter to transport than its 18" deep **Amplifier Deluxe Rack Systems** series counterparts.

The **Effects Deluxe Rack Systems** series offers you the flexibility to custom design the configuration of your rack system. Ideal for the touring musician, lighting specialist, studio producer or any audio enthusiast. Simply mount your gear on both sides of the case using our dual rack rails. Mounting hardware included.

Each case includes two removable covers for easy access to both sides of your Road Ready rack. Fits all standard 19" rackmountable equipment. Road Ready's rugged construction and hardware provide unparalleled protection from abuse. Stacks securely with other **Road Ready Effects Deluxe Rack Systems** series models.

RRSTAND: This rugged speaker stand includes top mount bracket for speakers that don't have any mounting brackets, which means it can be used with virtually any speaker on the market. Smooth operating hardware allows you to set up in minutes, and the system also collapses down to a convenient carrying size. Safety lock pins are included for additional security.

SMS36B, high quality, black aluminum monitor stand 32 inch high offers elegant, ultimate solution for any recording studio.
SMS42B, same as **SMS32B,** but 42 inch high.
