

**Road
Ready**

About Us:

Founded by a team of industry veterans, Road Ready entered the industry with a very specific goal in mind: to make the highest quality cases in the business... and make them affordable! We consulted with DJs, musicians, and retailers to determine what the real world requirements for touring cases were, and designed our cases to meet those specifications. Then, by using vertical integration manufacturing, we were able to control costs from beginning to end in the design, manufacturing, and distribution of all Road Ready cases; resulting in unmatched quality at an unparalleled price.

Road Ready has been a leader in designing innovative features that had not been integrated into professional touring cases until we brought them to market. These specialty features include Pick-&-Fit Foam, Pull Out Handles, Removable Storage Compartments, Recessed Wheels, and our latest: Z-Lock Foam. It's simple... Road Ready packs far more features and value into its cases than any of our competitors!

But don't take our word for it. Check out the latest line of Road Ready cases for yourself. Once you do, you won't ever settle for anything less!

Cable Port: Unique port with protective plate allows convenient routing of AC and phono cables through the rear of the case.

Casters: 3 1/2" heavy-duty casters with integral locking brakes provide convenient mobility with any RR rack system.

Corners: Heavy-duty stackable ball corners with three-prong six-rivet anchor provide protection against the heaviest transit abuse.

Front Panel Access: Unique front panel design with removable faceplate allows access to front mixer controls and headphone jacks.

Handles: Our recessed handles are spring loaded for retractability, and the rubber grip allows comfortable handling with even the heaviest of loads.

www.roadreadycases.com

MI GEAR
PA MIHER CASES

Easy Back Panel Access

RRM244: Smaller than the RRM324W, this case is designed specially to accommodate the Mackie 24.4 mixer. Road Ready's unique design allows you to fully access your mixer's rear connection panel for easy connections without having to remove your mixer from the case.

RRCFX20: The Road Ready RRCFX20 is designed to fit the popular Mackie CFX 20 mixer. Like the RRM324W and the RRM244, access to your mixer's rear connection panel is made easy via our unique rear access design.

Removable Top Cover

LIMITED LIFE TIME
ROAD READY
WARRANTY

Pull Out Handle: This innovative handle extends from the case and can be hidden or locked into a fully extended position for easy pushing or pulling.

Rack Rails: Heavy-duty pre-tapped rack rails are used to secure your electronics. Mounting hardware included.

Removable Rear Access Panel: A latching hinged door at the rear of the case allows easy access to your gear for convenient connections.

Removable Storage Compartment: Removable storage compartment located within the case's cover, provides the ideal place to store all those messy cables and accessories.

Rivets: Double anchor rivets secure all Road Ready hardware for maximum durability.

RRBK76W: Same unique Z-Lock Foam features as the Road Ready **RRKB61**, but designed to accommodate 76-key keyboards. Features low profile wheels for easy transport.

RRBK88W: Featuring Road Ready's Z-Lock Foam, the **RRKB88W** accommodates most 88-key keyboards. Other features include low profile wheels for easy transport.

Our **Turntable Case Series** provides the ultimate in protection for your turntables. These are the cases that made Road Ready famous! So make sure to check out the rugged construction, innovative design, and custom features of our **Turntable Case Series**. Once you do, you won't settle for anything else!

RR1200BMK2: This top-of-the-line turntable case includes a unique modular poly-foam padding system that makes it easily adaptable to any turntable on the market. The interior high-density foam padding is designed to precisely restrain your precious turntable and protect it from any abuse or damage. This unique case is the ideal protection for any professional turntable, including the industry standards: Technics 1200's and Vestax PDX2000 models.

RR1200HW + RR1200S: This innovative system combines two turntable cases and an entire transport system in one compact unit. Includes low profile wheels and a pull out handle that converts the **RR1200HW** into a rolling equipment carrier. Stack our Road Ready **RR1200S** turntable case on top, and you're off and rolling. Available separately -

RR1200HW: Turntable case with wheels and handle. **RR1200S:** Turntable case with transport locking mechanism.

These DJ cases are designed to protect the "head unit" of any professional DJ audio system - your turntables and mixers. Constructed with rugged exteriors to resist abuse, and padded with high-density foam for increased protection; these cases are the ultimate for the professional mobile DJ

RRDJ10: Designed to securely protect your playback source and control center, this case holds two battle positioned turntables, and a

Removable face plate

10" mixer between them. Also features a detachable top case lid. The **RRDJ10W** is the same as the **RRDJ10**, but includes the unique low profile Road Ready wheel system for easy mobility.

RRCDJ1000: This case is designed to protect and transport the extremely popular Pioneer CDJ1000 digital CD turntable. This new high tech CD turntable deserves the ultimate protection that Road Ready cases provide. The **RRCDJ1000** comes with convenient front panel access to your CD drawer.

www.roadreadycases.com

RR6WD: This highly functional rolling base unit provides mobility (complete with integral locking brakes) for those times when you need to move your gear from gig to gig. Simply mount all **Road Ready Slant Deluxe Rack** and **Amplifier Deluxe Rack** systems on top of the **RR6WD** for convenient transport and operation. The **RR6WD** raises your Road Ready rack 17" to a more convenient operating height. Includes heavy duty, 6U pull out drawer for extra storage of cables and accessories.

RR6WR: The same rolling base system as the **RR6WD**, but with an additional 6U rack mount space, instead of a pull out drawer.

RRWAD: Optional casterkit, 3 1/2" heavy-duty casters with integral locking brakes provides convenient mobility with any Road Ready Slant Deluxe Rack or Amplifier Deluxe Rack system.

Unique storage cover option available for selected models only (**RR8USAD** **RR12USAD**, **RR18USAD**).

When it comes to protecting your valuable LP and CD collections, nobody takes the job more seriously than Road Ready. We construct these cases to the same rugged standards as our other pro gear cases so you have the assurance that your music will travel just as safely as all of your other equipment.

RRLP: A deluxe LP case lined with high-density poly-foam padding will protect your valuable LP collection under the most abusive situations. Accommodates up to 80 LPs.

RRLPHW: This mobile version of the RRLP incorporates a unique pull out handle and wheels. Accommodates up to 100 LPs.

www.roadreadycases.com

RRM12S: This ATA style mic case features the flexibility to hold 6 or 12 mics. The choice is yours, simply remove one half of the padding and create storage room for your cables and accessories. Additional storage available in the removable cover.

**MI GEAR
MI UTILITY &
MIC CASES**

M12AS: Like the RRM12S only in Euro style. Features rounded corners and a "high tech" aluminum look.

DJ/MI GEAR
SLANT DELUXE
RACK SERIES

The Slant Deluxe Rack Systems series is available with a 10U slanted top rack for convenient mixer/CD controller placement, and a range of 3U to 16U vertical racks for amplifier or effects units. Cases include 18" rack depth and removable top and front covers. Unique, latchable, removable, hinged door at the rear allows easy access to your gear for convenient connections.

RRMW: No need to use awkward side tables to hold your extra gear! Road Ready wings mount easily to the top of your rig and provide much needed additional working space at a convenient operating height. Our Road Ready wings fit snugly into any of our **Slant Deluxe Rack** systems for convenient transport. Option available with all Road Ready Slant Rack models 6U and larger.

www.roadreadycases.com

RR6WD: This highly functional rolling base unit provides mobility (with integral locking brakes) for those times when you need to move your gear from gig to gig. It raises your Road Ready rack 17" to a more convenient operating height. Includes heavy duty, pull out drawer for extra storage of cables and accessories. Securely mounts all Road Ready Slant Deluxe Rack and Amplifier Deluxe Rack systems.

RR6WR: The same rolling base system as the RR6WD, but with an additional 6U rack mount space, instead of a pull out drawer.

RRWAD: Optional CasterKit, 3 1/2" heavy-duty casters with integral locking brakes provides convenient mobility with any Road Ready Slant Deluxe Rack.

Unique storage cover option available for selected models only

LIMITED LIFE TIME
ROAD READY
WARRANTY

When it comes to custom fitting and protecting your valuable recording gear, keyboards, and microphones; nobody takes the job more seriously than Road Ready. We construct our cases to ensure that your gear will travel with the ultimate in protection. In addition, we design special features that enable you to easily customize your Road Ready case to fit your most unique equipment transporting needs.

RRLUC: This case is designed for all your uniquely shaped units.

High-density poly-foam Pick-&-Fit inserts give you the flexibility to create the perfect custom storage space. With this case you have the confidence in knowing that your most sensitive electronics such as mixers and wireless mics (like those by manufactured by Shure, AKG and Mackie) will be fully protected under the most rigorous transit conditions.

RRDRC: Like the RRLUC, only larger. It's designed for larger size electronics and digital recording studios. Simply pick out the poly-foam Pick-&-Fit inserts and you've got the perfect customized case for your Korg, Akai, or Roland digital recording studios!

RRUC: Like the RRLUC, only smaller. It's the ideal case for moderate-size electronics and mics. Just create a layout of the shape and size of your equipment and pick out the poly-foam Pick-&-Fit Foam inserts. Now you've got the perfect customized case for your electronics system!

www.RoadReadyCases.com

RRCD100: This heavy-duty, four row design CD case allows you to carry 100 CDs in their original jewel cases or 400 CDs in viewpacks. The **RRCD150** offers the increased capacity of 150 CDs in original jewel cases or 500 CDs in viewpacks, housed in a six row configuration.

A Eurostyle, three row design, the **CD200AS** accommodates 200 CDs in viewpacks or 63 CDs in jewel cases. Rounded edge corners and silver aluminum "stucco" finish give this case a sleek look. The larger **CD300AS** can hold up to 300 CDs in viewpacks (or 95 in jewel cases) in a three-row design. And for the ultimate in protection for larger CD collections, the **CD400AS** is designed with four rows and the capacity to hold 400 CDs in viewpacks or 125 in jewel cases.

LP & CD CASES
DJ GEAR

Storage cover

The Amplifier Deluxe Rack Systems series is available in a complete array of sizes ranging from 2U to 18U models. Dual rack rails (mounted front and back at 18" rack depth) allow the flexibility to

accommodate virtually any amplifier built for professional use. Case includes two removable covers. Rugged construction and hardware provide unparalleled protection from abuse. Removable, built-in storage compartments located within Road Ready case covers, provide the ideal place to store all those messy cables and accessories. Storage compartments available with the following Road Ready models: RR8USAD, RR12USAD and RR18USAD.

Shock mount

RR12UADS: Another design breakthrough from Road Ready. Although we've already established Road Ready cases as the most bulletproof in the industry, we've gone a step further with this shock-mounted amp case-within-a-case. A unique integral suspension system will get your gear through situations where the ultimate in protection is required. CasterKit included. Other sizes available by special order.

The **Effects Deluxe Rack Systems** series offers you the flexibility to custom design the configuration of your rack system. Ideal for the touring musician, lighting specialist, studio producer or any audio enthusiast. Simply mount your gear on both sides of the case using our dual rack rails.

The **Effects Deluxe Rack Systems** series is available in a complete array of sizes ranging from 4U to 18U models. Dual rack rails (mounted front and back at a 14" rack depth) allow the flexibility to accommodate virtually any variety of audio effects units built for professional use. Its smaller size makes it easier and lighter to transport than its 18" deep **Amplifier Deluxe Rack Systems** series counterparts. Model numbers range from RR4UED to RR18UED.

Each case includes two removable covers for easy access to both sides of your Road Ready rack. Fits all standard 19" rack mountable equipment. Rugged construction and hardware provide unparalleled protection from abuse. Stacks securely with other **Road Ready Effects Deluxe Rack Systems** series models. Mounting hardware included.

www.roadreadycases.com

RR10MIX: A rugged 10" mixer case designed to fit in between two **RR1200BMK2** cases. Designed with a unique removable front panel for access to front mixer controls. Fits most 10" DJ mixers available on the market.

**DJ GEAR
TURNTABLE CASES**

RRBB: A rugged Battle Bridge with all the necessary hardware for mounting your 10" mixer between two Road Ready turntable cases.

TL-1200AS: You knew Road Ready was tough, but this case shows we also know how to be stylish. With velcro attached spacers, this Euro-style case provides precise restraint of virtually any professional turntable design including the highly popular Technics 1200's and Vestax PDX2000 models.

**ROAD READY
WARRANTY**

UNIQUE ROAD READY
PRODUCT FEATURES

Road Ready understands the importance of protecting your keyboard under the most rigorous of transport circumstances. That's why we've designed Z-Lock Foam that enables you to customize the inner length, width, and height of your Road Ready case to custom fit your keyboard! Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive to its destination in perfect working order. When it comes to custom fitting and protecting your valuable keyboards, nobody takes the job more seriously than Road Ready. We construct our cases to ensure that your gear will travel with the ultimate in protection.

RRKB61W: This case is designed specifically to protect your 61-key keyboards. The Z-Lock Foam padding system transforms the inside of your case. Easily change the length, width, and height of your Road Ready case by adding or removing layers of our Z-Lock Foam. If you care about your keyboard, you'll want to make sure it gets the ultimate in travel comfort. Includes wheels for easy transport.

Rubber Feet: Top quality rubber feet are attached with heavy duty bolts and recessed T-nuts, because the bottom of your case is likely to get the most abuse.

Tongue & Groove Fit: Precise extruded tongue & groove construction creates a positive locking fit with all Road Ready covers.

Wheels: Unique low profile innovative wheel design allows convenient mobility.

Wings: Mount easily to the top of your rig and provide much needed working space at a convenient operating height.

Z-Lock Foam: Lets you customize the inner length, width and height of your Road Ready case to fit most of your keyboards.

UNIQUE ROAD READY
PRODUCT FEATURES

These rugged cases provide all the protection you'll need when transporting your PA mixers even under the most rigorous conditions. Our heavy-duty construction, unparalleled durability, and special features let you travel with the confidence in knowing that your gear will arrive to its destination in perfect working order. When it comes to custom fitting and protecting your valuable PA mixers; nobody takes the job more seriously than Road Ready. All of our PA Mixer cases are designed using the highest quality of standards because we're serious about protecting your investment. Rest assured in knowing that we construct our cases to ensure that your gear will travel with the ultimate in protection.

Recessed hardware

Low profile wheels

RRM324W: This Road Ready case is designed to fit the Mackie 32.4 PA mixer. It features a low profile base and a removable, latchable cover. This unique design allows you to fully access your mixer's rear connection panel for easy connections without the necessity of removing your mixer from the case. Also contains low profile wheels for easy transport.

Hinges: Quick-fit hinges allow easy top removal and installation while providing secure latching.

Latches: Our recessed industrial grade bi-position latch (with five rivet anchor construction) fastens each case's cover for ultimate security.

Pick-&-Fit Foam: Lets you easily customize your case to fit your most uniquely shaped equipment via our Pick-&-Fit technology.

Plywood Construction: Rugged premium grade 3/8" vinyl laminated plywood provides reinforced resistance to damage and greater structural integrity.

Protective Back Plate: A secure plate at the rear of the case restricts access to the interior, keeping connections and wiring secure.

Warranty

Road Ready, of Long Beach California, U.S.A. warrants to the ORIGINAL OWNER of each new Road Ready product (provided it was purchased at an Authorized Road Ready dealer) that it is free of defects in material and workmanship and that each product will meet or exceed all factory published specifications for each of our respective models. Road Ready agrees to repair or replace (at its discretion) all defective parts at no charge for labor or materials. Road Ready will correct any defect, regardless of the reason for failure (except as excluded) by repair or replacement. Road Ready will remedy the defect and ship back the product to the customer within a reasonable time after receipt of the defective unit at a Road Ready Authorized Service Center.
