ALLEN & HEATH MIXER CASES

Created for the Pro's, our series of Allen and Heath mixer cases are made for the journey and built to hold strong in high stress situations. This series is crafted with our no-pressure design to protect your mixer controls and our unique low profile base that allows you to access the mixer's rear connection panel without removing your mixer from the case. And to make transporting your gear even easier, on some models we included our low profile wheels or rugged caster for sleek, stealth mobility. A Doghouse to get a handle on all your messy cables is also an option! Tougher than the pavement! That's the idea.
