

RR1200HW1

The ultimate hook-up of style and innovation, the RR1200HW1 is constructed to hold up to a 1000 miles of abuse. Lugging around all your gear can be a drag so Road Ready cleverly combined a turntable case into a hassle free moving unit. When you're on the move simply pull out the handle and roll your turntable away on the unique low profile wheels. The RR1200HW1's rugged construction also features a unique modular poly-foam padding system which allows you to create the perfect custom space for virtually any turntable on the market including industry standards like Technics 1200's, Vestax PDX2000 and Numark TT-X1 models. And a rear access cable port is included for easy, no-hassle connections. Hey, we're looking out for you.
