

RRM18U

Good construction doesn't go out of style. That's our MO and that's why we create cases that are done right. Designed with a 10U slanted top rack for convenient mixer/CD controller placement and a 18U vertical rack for amp or effect units, the RRM6U is built right. The RRM18U features an 18" rack depth and 2 heavy-duty removable covers. To make a good thing even better we added a unique removable, rear hinged door for easy access to your gear. At last, connections without a hassle.

Rugged Road Ready
