

RRM4UHW

Good construction doesn't go out of style. That's our MO and that's why we create cases that are done right. Designed with a 10U slanted top rack for convenient mixer/CD controller placement and a 4U vertical rack for amp or effect units, the RRM4UHW is built right. The RRM4UHW features an 18" mountable rack depth and 2 heavy-duty removable covers. To make a good thing even better we added a unique removable, rear hinged door for easy access to your gear. And to help you get moving we even included a pull out handle and low profile wheels. Now that's the ticket!
