F E A T U R E S

- **Auto Cue and Auto Pause for Simplified Editing of Music and Narration:**
Auto Cue cancels the blank space before the start of a song, pausing automatically. Auto Pause pauses between the end of one song and the beginning of the next. Playback options include Continue, Program Play and Shuffle.
*For practicing music: Using a combination of Auto Pause and A-B Repeat, you can have a certain segment played back numerous times, with a pause between each segment.
*For playback of music/sound effects from stage performances: Offers immediate playback and automatic interruption of previously-recorded CD-R data.
- **Balance and Pin Jack Output Terminals:**
The XLR-3-32 balance output terminal achieves independent volume control for each channel. As a result, output levels can be finely tuned.
- **SPDIF (Optical) Digital Output Terminals:**
Allows for direct digital connection to other recording equipment.
- **Supplied Rack Mount Adaptor:**
The CDP-L3 can be mounted on the EIA 19-inch rack (3U size).
