

SONY®

With its 10cm full range design, this powered near field monitor achieves playback with a highly accurate mixing balance. Anti-magnetic properties make this monitor ideal for desktop music and video editing. An array of input terminals have been incorporated, including a balanced (XLR) input.

S M S - 1 P POWERED NEAR FIELD MONITOR

F E A T U R E S

- ▶ **2 Types of Inputs for Enhanced Mixing Capabilities**
Input 1: pin jack, standard jack.
Input 2: XLR-3-31 connector (balance input), standard jack allows for two types of mixing, such as a monitor and a talkback, a keyboard and back music, or a personal computer and music source. Both types of inputs control the input volume so that sound levels can be controlled independently.
- ▶ **Large Heat Sink and Built-In Power Amp with 15W Power Output**
The power amp boasts a durable design capable of long hours of use. An independent buffer amp has been included for each input, providing superior sound quality. The buffer amp and power amp each has its own power supply, preventing mutual interference.
- ▶ **Anti-Magnetic Speaker Unit**
A 10cm full-range speaker unit has been included, complete with a canceling magnet and large-size shield.
- ▶ **Bass/Treble Control for Sound that Matches the Listening Environment**
- ▶ **Mounting Capabilities**
Two 5mm nut holes (pitch 60mm) have been included on the bottom of the main body, allowing for mounting of the monitor. (Mount rack sold separately.)
