## Speaker Systems **SRP-S730**

The SRP-S730 Speaker System is designed for use as a floor foldback unit, or mounting on a wall or ceiling. It employs a 20 cm cone woofer and a horn tweeter to provide high quality sound output.

## Main Features

1. Triangular-shaped enclosure for flexibility of application. Two different angles 35° or 45° can be chosen to the surface to mount.  
For foldback use, the speaker axis is at an ideal 55° to the floor.  
Similarly, when ceiling mounted, the sound is directed downwards.  
Its shape also makes it suitable for corner mounting.
2. High reliability, with 110W rated input and 300W maximum input power. A protection circuit to prevent damage to the units from excessive input is included.
3. Clear and powerful sound, ideal for vocal reproduction and particularly suited to foldback and PA applications.
4. Neutrik Speakon connector for foldback use. Screw terminals for wall or ceiling fixed installation.
5. Optional MU-753S (black) bracket for ceiling mounting, MU-753M (black), bracket for wall / ceiling mounting.  
Fixing is with M5 bolts.

## Specifications

Type	20 cm woofer and horn tweeter, bass-reflex
Rated impedance	8 ohms
Rated input power	110 W (IEC 100 hours)
Max. input power	300 W
Sensitivity	92 dB/W/m
S.P.L. at rated input	112 dB
Effective frequency range	62 - 20,000 Hz (-10 dB)
Input terminals	Neutrik Speakon NL-4MPR Screw terminal
Material of enclosure	Particle board
Material of front grill	Iron punching metal
Color of grill	Black
Operating temperature	-10 to +50°C
Storage temperature	-20 to +60°C
Dimensions	Approx. 280(W) x 450(H) x 310(D) mm 11 1/8(W) x 17 3/4(H) x 12 1/4(D) inch
Mass	Approx. 7.5 kg
optional accessories	For SRP-S730: MU-753S ceiling mounting black bracket MU-753M wall / ceiling mounting black bracket
