Also available with a black fleece exterior

K-TEK TOPPER WINDSCREEN FOR HANDHELD MICS

K-Tek introduces the Topper wind protector, designed specifically for handheld microphones. Featuring a faux fur cover and tightly woven micro fiber lining, the Topper fits snugly over standard foam covers. The Topper is an ideal addition to popular handheld microphones like the EV-RE-50 and Sennheiser MD46. It is also available with a black fleece exterior.

The Topper has a U.S. MSRP of \$54.00

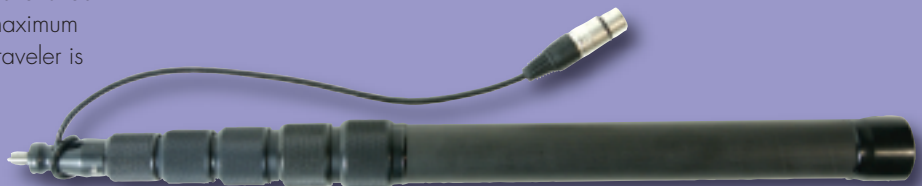

AVALON GRAPHITE TRAVELER BOOM POLES

Designed to fit into a standard equipment case, the Avalon Graphite Traveler has a minimum length of just 22" (56 cm) and fully extends to 7'8" (2.2 meters).

Constructed of lightweight carbon fiber, the Traveler is ideal for ENG, EFP, and DV production or as a great back-up pole. The five telescoping sections lock together via the K-Tek "captive collet" for maximum holding power with minimum torque. The Traveler is available wired or unwired.

AVALON GRAPHITE TRAVELER

Model	Min. Length	Max. Length	Sections	Weight	Special MSRP
KEG-88	22"(56cm)	7'8"(2.2m)	6	0.907oz (411g)	\$325.00
