Receivers

**STR-DG500 A/V Receiver**

Performance and Simplicity

**Key Features/Selling Points**

- Power increased to 110 Watts X 6 (prior year model was 100 Watts X 6)
- Designed as Sony's entry-level surround sound receiver, so performance and simplicity are the key.
- Digital Cinema Auto Calibration
- Digital Cinema Sound
- Features A/V Sync, a Special Digital Signal Processing that allows for lip sync delay to adjust to match the refresh rates of today's advanced flat panel televisions and microdisplays.

**STR-DG800 A/V Receiver**

Digital HD video and digital audio

**Key Features/Selling Points**

- 110 Watts x7
- HDMI Passthrough
- XM Connect-and-Play™<sup>1</sup>
- A Portable Audio Enhancer
- HDMI Switching
- Digital Cinema Auto Calibration
- Digital Cinema Sound
- Component Video Up Conversion allows for composite and S-Video sources to be converted to component video output, minimizing the number of connections needed from receiver to your Television set.
- Design and Control – Improved front panel cosmetics with logic based button layout and control structure. Remote Control also benefits from “zoned” design (like functions grouped together on remote control) also features glow keys for night time use.

**STR-DG600 A/V Receiver**

True Theater Sound at Home.

**Key Features/Selling Points**

- Power increased to 110 Watts X 7 (prior year model was 100 Watts X 7)
- XM Connect-and-play™<sup>1</sup>
- Digital Cinema Auto Calibration
- S-Video Up Conversion allows for composite video sources to be converted to the S-Video output, minimizing the number of connections needed from receiver to your Television set.
- Front A/V Input
- Advanced A/V Sync
- Digital Cinema Sound

**STR-DG900 A/V Receiver**

The full HD experience

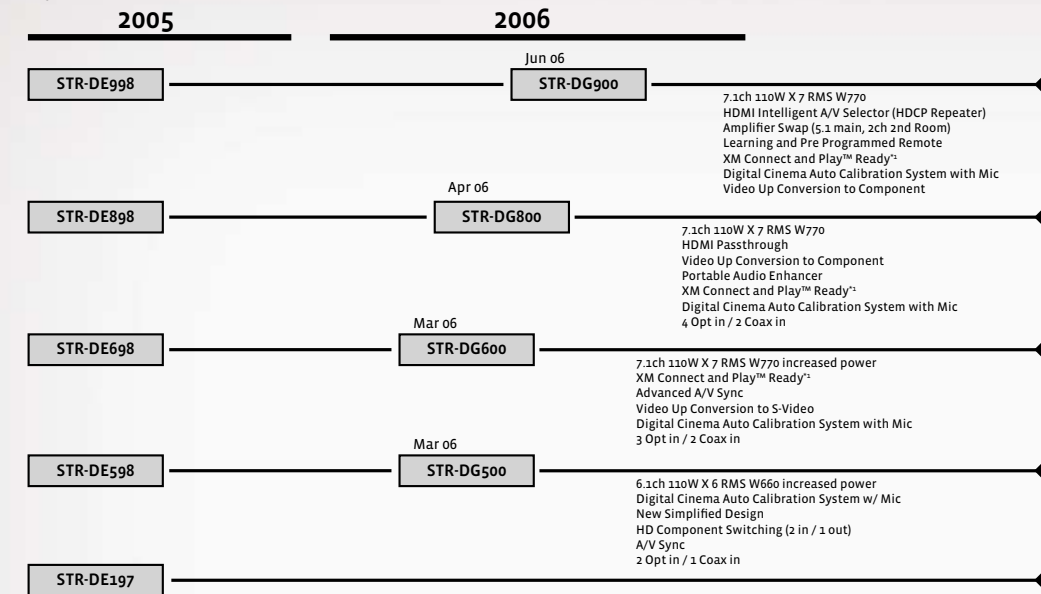

**Key Features/Selling Points**

- 110 Watts x7
- HDMI Active Intelligence
- Portable Audio Enhancer
- Powered Multi-Room – While a riveting 5.1 channel surround experience can be enjoyed in your living room, the other two channels of the amplifier can be routed to any room in your house while you enjoy listening to anything that is connected to the receiver (fully independent of the main room, but requires additional wiring not included).
- On Screen Display – Allows for simplified setup and improved day-to-day operation by allowing all setup and critical operations to be displayed on your TV.
- Component Video Up Conversion – Allows for composite and S-Video sources to be converted to component video output, minimizing the number of connections needed from receiver to your Television set.
- XM Connect-and-Play™<sup>1</sup>
- Digital Cinema Auto Calibration
- Digital Cinema Sound
- Design and Control – Improved front panel cosmetics with logic based button layout and control structure. Remote Control also benefits from “zoned” design (like functions grouped together on remote control) also features glow keys for night time use.

**Receiver Step Up Chart**

Items in bold are new features in 06 products

**Key Technology Stories**

**HDMI Active Intelligence** — Powerful HDMI connectivity combined with Active Intelligence offers automatic detection of optimal video and audio signals from all connected components with convenience of a simple one wire connection. Offered in the STR-DG900 AV Receiver.

**HDMI Passthrough** — Powerful HDMI connectivity allows for uncompressed audio and video to pass through directly to your HDMI capable television. Offered in the STR-DG800 AV Receiver.

**Digital Cinema Auto Calibration** — Now the optimal speaker for your living room is only a press of button away. Simply place the included microphone in your listening position and allow the strength of Sony's Digital Signal Processing to take over. Speaker placement, distance, and delays are all adjusted automatically to ensure a worry free listening experience.

**XM Connect-and-Play** — A World of digital radio is at your fingertips. Connect the optional Connect-and-Play antenna, sign up for XM service and enjoy the variety of digital radio with the superior sound quality of an A/V receiver.<sup>1</sup> Offered in the STR-DG600, STR-DG800, and STR-DG900 AV Receivers.

**Portable Audio Enhancer** — Simplified front audio and video connections are part of what makes the STR-DG800 and STR-DG900 ideal for today's portables. Beyond the simplified connection a powerful Digital Signal Processor is used to expand the quality from any device that is connected.
