SONY

Shelf Systems

Sony's Shelf Systems are perfect for customers looking to add excitement at parties! The new MHC-LX10000 features 3 CD changer, 2-way front and surround speakers, Groove bass boost function and D-Light Sync™ feature which allows you to connect optional D-Light stage lights for visual effects. Colorful lights will synchronize with your music to add exciting visual effects. Sony's shelf systems will keep the party in full swing well into the next day!

The CPF-IX001 Wireless PC Audio System delivers incredible sound from music stored on your Wireless Networked PC and is the first product of its type from Sony. Wide software compatibility and four playlists make controlling content from your PC a breeze. While, its compact size offers room filling sound with S-Master® amplifier and subwoofer while fitting into a wide variety of locations including the bedroom, kitchen, and living room. Sony brings the world of sound and PC stored music content in one compact and elegant solution, perfect for today's networked home.
