MiniDisc Recorder

MDS-JE520
msrp \$360.00

Features

- **Monaural Recording for extended time** Records up to 148 minutes (mono), records up to 74 minutes (stereo)
- **Un-do Editing** lets you reverse your last Move, Erase or Combine edit; available until you eject the disc or record over your work
- **A-B Erase Function** is ideal for deleting interruptions like radio commercials
- **Advanced Time Shift Recording** actually captures music to disc two full seconds before you press the Record button; perfect for recording live events or radio broadcasts
- **Digital Record Level Control**
- **Digital Fade In/Out**
- **2 Optical and 1 optical digital input** for direct digital-to-digital connection to a CD Player or DSP receiver
- **Convenient Jog Dial** for Split-second track access; text entry
- **Sampling rate converter** for digital-to-digital recordings from DAT
- **Wide Bit Stream technology** maintains 20-bit precision through the recording process, for clearer reproduction of delicate, low-level music
- **20 Bit Analog to Digital Converter** for superb precision with [Wide Bit Stream](#) technology
- **Fourth-generation ATRAC circuitry** for smoother, more clearly delineated sound; ATRAC enables you to capture 74 minutes of digital audio on a 2-1/2 inch diameter disc
- **Hybrid Pulse D/A Converter** minimizes zero-cross distortion, for smooth, open sound-even during delicate quiet passages
- **Shock Resistant Memory (SRM)** buffer holds up to 10 seconds of music for uninterrupted playback, even when accidentally bumped
- **Non-linear recording and playback** like a CD, allows instant playback at the push of a button; you can also record without searching for the end of the recorded section-the deck

automatically finds blank spots on the disc and records onto them without interruption

- [25-step programming](#)
- [3 Play Modes](#) (Continue, Shuffle, Program)
- **3 Repeat Modes** lets you repeat disc, repeat song, or repeat between A and B points that you designate [Text Display](#)
- [Text Entry](#) for recordable MiniDiscs
- **Powerful editing** features: Erase One, Erase All, Combine, Divide, Un-do, Record from end, Record Over, and Move tracks; a MiniDisc can be recorded and re-recorded over one million times
- [Smart Space](#) provides a uniform three-second spacing between all songs
- **Auto Cut**
- **Timer standby** recording and playback with compatible Sony MHC Series home component systems
- **Anti-resonant insulator feet** with off-center holes to minimize resonance
- **CD Synchro Record** coordinates Record and Pause modes with a Sony CD Player
- **Headphone jack** with volume control
- **Remote Commander® remote control** with Direct Access™ track selection, title input, power On/Off

Specifications

- **Format:** MiniDisc digital audio system
- **Record/Playback Time:** Max. 74 minutes with Sony MDW-74 Recordable MiniDisc
- **Sampling Frequency:** 44.1 kHz
- **WOW and Flutter:** Unmeasurable
- **Inputs:** Line: Phono jacks
Optical: 2 Optical
- **Outputs:** Line- Phono jacks
Optical
- **Headphone:** Stereo phono jack

Weight

N/A
