

**FEATURES**

**Lab-quality Prints from your Digital Pictures**

Produce beautiful high-quality prints in the convenience of your own home. The DPP-FP30 makes it simple, easy and cost-effective.

**Print Images In Two Sizes**

The DPP-FP30 can print borderless 4" x 6" postcard sized prints or borderless 3½" x 5" prints.

**PictBridge™ Compatibility**

Connect your PictBridge compatible camera to the DPP-FP30 via USB cable for a simple photo printing method without the need for a computer.

**High Resolution Photo Quality Dye Sublimation Printing**

The DPP-FP30 photo printer can print images with up to 16.7 million colors in a continuous tone dye-sublimation process, providing outstanding print quality.

**High Speed Printing**

Sony's new and improved Photo Quality Processor allows you to print a 4" x 6" picture in about 90 seconds—including processing time, when used with a PC.

**Dye Sublimation Printing**

Dye-sublimation technology uses layers of color dye to create continuous tone images with color richness that rivals traditional photo prints

**Image Optimization Functions**

Image Optimization functions through Sony's Photo Quality Process helps to improve picture quality including sharpness and automatic color correction.

**SuperCoat 2 Protective Lamination**

SuperCoat 2™, a unique Sony Lamination process, is applied as a final step in the printing process, which helps protect the photos from color-shift and fading. Sony photo prints are built to last, resisting moisture, fingerprints and fading.

**PC Compatible via USB**

For added use and function, the DPP-FP30 can be connected to your PC using the USB connection and the supplied Sony Software driver. (Windows only)

**Compact Size**

At just 6 7/8" x 2 3/8" x 5 3/8", the DPP-FP30's small size fits easily within your lifestyle. Whether next to your TV, or near your PC, the DPP-FP30 makes it easy to print your digital pictures. (Dimensions do not include paper tray.)

**Auto Feeder Tray**

Print up to 20 images in one session, without having to feed paper into the printer one sheet at a time. The supplied auto-feed tray will accommodate two different sizes of paper (4" x 6" and 3½" x 5") for simple, quick and quiet printing.
