Key Features

- Line Input Recording (No Tuner)
- HDMI™ Output with 720p/1080i Upscaling⁵
- Set Top Box Pass Through w/Control
- 1 Touch Dubbing from DV/D8 Camcorder through LINK® port
- Multi-Format DVD Disc Compatible

Key Technologies

HDMI™ Output with 1080p upscaling of DVD Media³ Reads the data on a standard DVD at 480P and upscales the video resolution to 1080p resolution on your compatible TV. This allows for you to enjoy the best in video performance while delivering digital video and audio over one simple cable.^{3, 4}

Set Top Box Pass Through Allows for viewing of programming from Cable Set Top Box or Satellite Receiver even when the recorder is powered off through the line input. You can see TV programs of the connected Cable Set Top Box or Satellite Receiver, regardless if the recorder is powered on or not.

One Touch Dubbing Allows for the easy copying of your personal content on VHS tapes, DV/Digital 8 tapes and DVD discs in order to preserve for a long time, or to share it with your relatives and friends; provides easy operation by just pressing button on the front panel.

Line Input Recording Refers to utilizing Audio/Video inputs to record desired programming from a set-top box or other video sources that use A/V outputs.

 IMPORTANT FACT: U.S. law requires all over-the-air broadcasting to switch
 from analog to digital signals on February 17, 2009. After that date, this
 product will require a converter device in order for it to receive/record over-
 the-air broadcasts via an antenna from your local TV stations. If you are a
 pay TV subscriber, your cable or satellite box should provide this
 functionality without additional equipment. Playback of recorded media
 (e.g. DVD or VHS movies) should remain unaffected.

Reproduction in whole or in part without written permission is prohibited.
