Cinescore software introduces new levels of customization, performance, and accuracy to the world of professional soundtrack creation. Automatically generate an unlimited number of musical compositions using royalty-free Theme Packs in a wide array of popular styles. Discover the true potential of your video by taking full control over your soundtrack.

**UNLIMITED RESULTS**
Cinescore software automatically generates an unlimited number of fully orchestrated compositions that custom fit to your video. Adjust parameters such as mood, tempo, and intensity to create anything from complex songs to short and sweet stinger tracks. Cinescore software gives you the tools and flexibility to create highly customizable songs every time for full control over your soundtrack.

**MULTIPLE MEDIA OPTIONS**
Cinescore software imports a wide range of file formats for easy project creation, including AVI, AIFF, BMP, JPG, MP3, MPEG-1 and MPEG-2 video, PCD, PS3, QT, SWF, WMA, and WMV. Arrange your media on the timeline, then create dynamic and effective musical tracks for movies, slideshows, commercials, and radio productions in minutes. Export to popular formats such as MPEG-2 for DVD and MPEG-4 for portable media players.

**TUTORIALS AND HELP**
In-depth tutorials give you single-click access to various topics, from basic project creation to variation settings. Interactive text dialog boxes and guides walk you through step by step so you can learn as you go.
