UNLIMITED RESULTS
Cinescore software automatically generates an unlimited number of fully orchestrated compositions that custom fit to your video. Adjust parameters such as mood, tempo, and intensity to create anything from complex songs to short and sweet stinger tracks. Cinescore software gives you the tools and flexibility to create highly customizable songs every time for full control over your soundtrack.
MULTIPLE MEDIA OPTIONS
Cinescore software imports a wide range of file formats for easy project creation, including AVI, AIF, BMP, JPG, MP3, MPEG-1 and MPEG-2 video, PCA, PSD, QT, SWF, WAV, and WMV. Arrange your media on the timeline, then create dynamic and effective musical tracks for movies, slideshows, commercials, and radio productions in minutes. Export to popular formats such as MPEG-2 for DVD and MPEG-4 for portable media players.

ROYALTY-FREE THEMES
No loops to stack up or complicated licensing fees to drain your budget. Multigenre, royalty-free production music is just minutes away. Cinescore software includes one DVD featuring two complete Theme Packs perfect for action sequences, weddings, corporate presentations, family vacations, and much more. Each Theme automatically generates an unlimited number of different arrangements and variations.
CONTROL AND CUSTOMIZE
Professional projects rely on precisely synchronized music and agile transitions. Switch up tempo, mood, and intensity by positioning Hint Markers to correlate with the changes in your video.
AUDIO SWEETENING
Cinescore software includes over 300 sound effects and audio transitions to enhance your soundtrack. Layer musical hits, comedic effects, and sonic textures across multiple tracks to achieve maximum impact.

MULTIPLE EDITING CAPABILITIES
Don't fumble with clunky blocks of prearranged music. Gain full control over your media and create a custom fit for your soundtrack with precise adjustments to volume, panning, pitch, and tempo.
VIDEO TIMELINE
In addition to a real-time preview window for video scrubbing, Cinescore software offers a dedicated timeline with functional editing capabilities for your video and images. Now you can do more with your media.
TUTORIALS AND HELP
In-depth tutorials give you single-click access to various topics, from basic project creation to variation settings. Interactive text dialog boxes and guides walk you through step by step so you can learn as you go.

MULTIPLE OUTPUT OPTIONS
Deliver projects in nearly any format: ATRAC, AVI, MOV, MP3, OGG, RM, WAV, WMA, and WMV. Export DVD-compliant MPEG-2 files, as well as PSP™ (PlayStation®Portable) and Apple® iPod®-compatible MPEG-4.

SYSTEM REQUIREMENTS
- Microsoft® Windows® 2000 (SP4) or XP
- 1.5 GHz processor
- 512 MB RAM, 1GB recommended
- 200 MB hard-disk space for program installation
