

Sony's MB-806 is a modular UHF tuner frame designed to house up to 6 "WRU-type" UHF receiver modules in one rack. Built for professional use with heavy construction, XLR connectors, and great RF performance. A built-in active antenna divider allows one pair of AN-820A or K1314 antennas to operate all six channels. An output level switch selects mic or line operating level for all outputs. The reinforced steel frame is designed for secure module mounting.

## Sony's MB-806A Rack Mount Tuner Base Unit

**MB-806A • Suggested List Price \$1,000.00 ▼**

### Key Features

- 19" rack mount tuner frame (1RU)
