WIDE ATTACHMENT LENS

VCL-04HS

Sony Corporation Printed in Japan © 1986

English

To obtain a wide picture angle, attach this wide attachment lens to the camera of Sony's Camera and Monitor System WatchCam. It is useful to see a wider area inside a room, or to see what is in the blind spot of your car. Attach the lens after removing the camera from its mount or after removing the camera hood.

For protection, keep the supplied lens caps on the lens when it is not being used.
