

The Sony UP-D23MD is a new digital color printer with a USB 2.0 interface. The UP-D23MD is the upgraded version of the current UP-D21MD with an improved high speed USB 2.0 interface and is backward compatible with USB Version 1.1. USB 2.0 allows for a faster transfer rate of data, thus improving overall printing time. The new UP-D23MD uses the current media models (UPC-21L and UPC-21S) compatible with the UP-D21MD.
