

UP-D50/UP-D50/MD

Color Digital Printer

SONY®

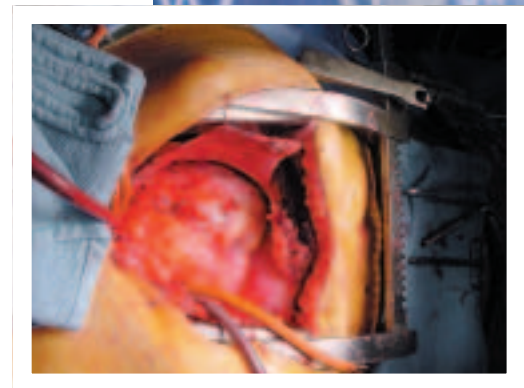

The Sony UP-D50 and UP-D50/MD provide outstanding digital photo prints in approximately 30 seconds*. This medical grade printer has an image spooling function that enhances productivity by allowing a second image to be transferred at the same time the first image is being printed, reducing total printing time and increasing throughput. The UP-D50/MD is capable of printing multiple images (1, 2, or 4 images) on one page and includes our adapter cable which provides interface capability with USB peripherals. The UP-D50/MD combines reliability with the features required for a wide range of medical applications.

UP-D50

- Digital Color Video Printing
- 5 x 7 Print Size
- Approximately 300 dpi
- High Speed Printing - approximately 30 Seconds in high-speed mode
- USB Compatible using supplied adapter cable (MD model only)
- High quality, photo-like images
- Worldwide power and video capability
- Cut paper "no curl" print media

*Compatible with Windows® 2000/XP only.
