2390 T

Four icons for effect 2390. The first shows a white square with a grey vertical bar on the left and a circular arrow. The second shows a white square with a grey vertical bar on the right and a circular arrow. The third shows a white square with a grey vertical bar on the left. The fourth shows a white square with a grey vertical bar on the right.

2391 T

Four icons for effect 2391. The first shows a white square with a grey horizontal bar at the bottom and a circular arrow. The second shows a white square with a grey horizontal bar at the top and a circular arrow. The third shows a white square with a grey horizontal bar at the bottom. The fourth shows a white square with a grey horizontal bar at the top.

2392 T

Four icons for effect 2392. The first shows a white square with four arrows pointing outwards from the corners. The second shows a white square with a grey vertical bar on the left and a circular arrow. The third shows a white square with a grey vertical bar on the right and a circular arrow. The fourth shows a white square with four arrows pointing outwards from the corners.

2393 T

Four icons for effect 2393. The first shows a white square with four arrows pointing outwards from the corners. The second shows a white square with a grey horizontal bar at the top and a circular arrow. The third shows a white square with a grey horizontal bar at the bottom and a circular arrow. The fourth shows a white square with four arrows pointing outwards from the corners.

2394 T

Four icons for effect 2394. The first shows a white square with four arrows pointing outwards from the corners. The second shows a white square with a grey vertical bar on the left and a circular arrow. The third shows a white square with a grey vertical bar on the right and a circular arrow. The fourth shows a white square with four arrows pointing outwards from the corners.

2395 T

Four icons for effect 2395. The first shows a white square with four arrows pointing outwards from the corners. The second shows a white square with a grey horizontal bar at the top and a circular arrow. The third shows a white square with a grey horizontal bar at the bottom and a circular arrow. The fourth shows a white square with four arrows pointing outwards from the corners.

Two-picture brick (2)

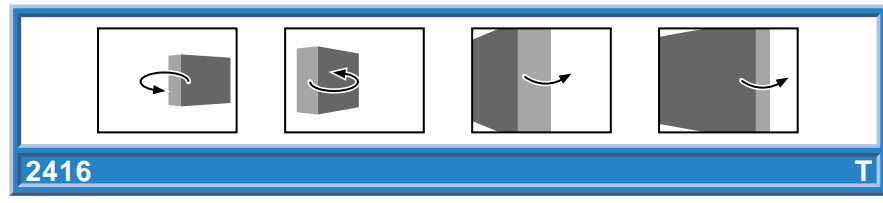

2414 T

Effect 2414 sequence: Four frames showing a 3D brick rotating 90 degrees clockwise around its vertical axis.

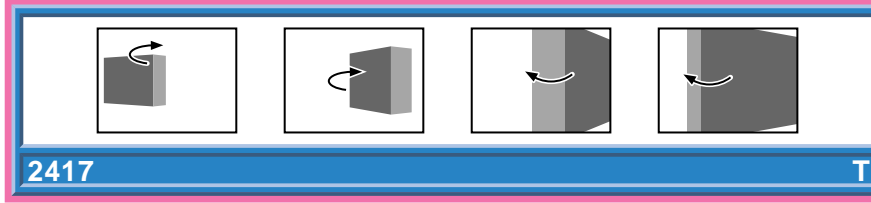

2415 T

Effect 2415 sequence: Four frames showing a 3D brick rotating 90 degrees counter-clockwise around its vertical axis.

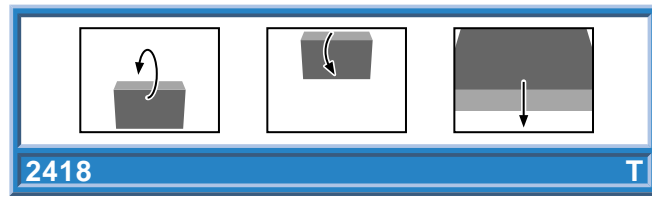

2416 T

Effect 2416 sequence: Four frames showing a 3D brick rotating 90 degrees clockwise around its horizontal axis.

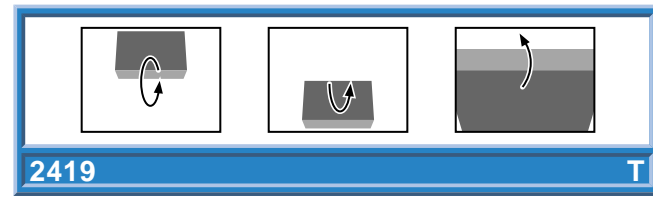

2417 T

Effect 2417 sequence: Four frames showing a 3D brick rotating 90 degrees counter-clockwise around its horizontal axis.

2418 T

Effect 2418 sequence: Three frames showing a 3D brick rotating 90 degrees clockwise around its vertical axis, followed by a frame with a downward arrow indicating a transition.

2419 T

Effect 2419 sequence: Three frames showing a 3D brick rotating 90 degrees counter-clockwise around its vertical axis.

Masked flip (1)

2480 T

Effect 2480: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2481 T

Effect 2481: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2482 T

Effect 2482: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2483 T

Effect 2483: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2484 T

Effect 2484: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2485 T

Effect 2485: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2486 T

Effect 2486: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2487 T

Effect 2487: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2488 T

Effect 2488: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

2489 T

Effect 2489: Masked flip (1). The visual sequence shows four stages of a circular pattern. Stage 1: A standard concentric circle pattern. Stage 2: The pattern is distorted by a horizontal flip, with a curved arrow above indicating the rotation. Stage 3: The pattern is further distorted by a vertical flip, with a curved arrow above indicating the rotation. Stage 4: The pattern returns to the original concentric circle pattern.

Masked flip (2)

2490 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2490. It shows a sequence of four square wave patterns. The first is a standard square wave. The second and third show the wave being mirrored and then further processed with a mask, indicated by circular arrows above the patterns. The fourth shows the final masked and flipped square wave.

2491 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2491. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2492 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2492. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2493 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2493. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2494 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2494. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2495 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2495. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2496 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2496. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2497 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2497. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern. This row is highlighted with a pink border.

2498 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2498. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2499 T

Diagram illustrating the 'Masked flip (2)' effect for parameter 2499. It shows a sequence of four square wave patterns, similar to 2490 but with a different mask pattern.

2532 A

A horizontal bar containing four square icons. The first icon shows a diamond shape with a circular arrow indicating rotation. The second icon shows a smaller diamond shape. The third icon shows a diamond shape with a circular arrow and a smaller diamond inside it. The fourth icon is a solid gray square.

2533 A

A horizontal bar containing four square icons. The first icon shows a square with a circular arrow indicating rotation. The second icon shows a smaller square. The third icon shows a square with a circular arrow and a smaller square inside it. The fourth icon is a solid gray square.

2534 A

A horizontal bar containing four square icons. The first icon shows a trapezoidal shape with a circular arrow indicating rotation. The second icon shows a smaller trapezoidal shape. The third icon shows a trapezoidal shape with a circular arrow and a smaller trapezoid inside it. The fourth icon is a solid gray square.
